Product Overview

Composition (per softgel):

Calcitriol

0.25 mcg

Calcium Carbonate I.P.

eq. to Elemental Calcium – 250 mg

Vitamin K2-7

(MK-7, 1%) – 45 mcg

Key Features:

Advanced bone health formulation

with *Calcium + Active Vitamin D3 + Vitamin K2-7*

Targeted calcium delivery

Vitamin K2-7 directs calcium to bones and prevents vascular calcification

Enhanced calcium absorption

Calcitriol enhances calcium absorption & utilisation

Comprehensive protection

Helps maintain strong bones & healthy arteries

Role of Key Ingredients

Calcitriol (0.25 mcg)

- Active Vitamin D3 → improves intestinal absorption of calcium & phosphorus
- Enhances bone mineralisation

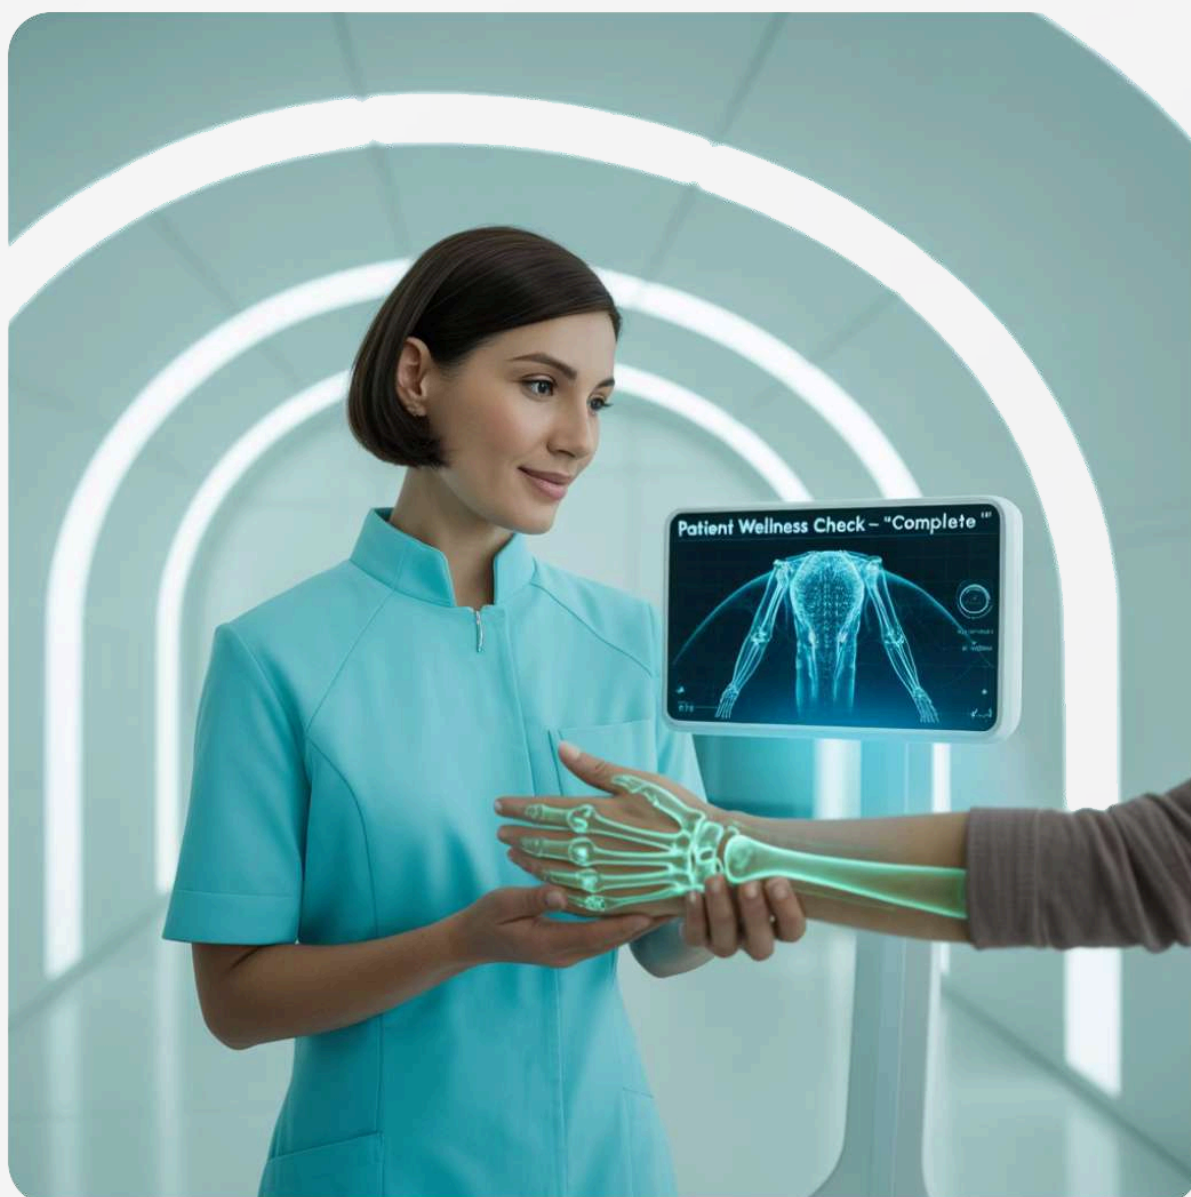

Calcium Carbonate (250 mg elemental)

- Provides essential calcium for bone strength
- Maintains skeletal density & prevents fractures

Vitamin K2-7 (MK-7, 45 mcg)

- Activates osteocalcin → binds calcium into bone matrix
- Prevents calcium deposition in blood vessels
- Improves cardiovascular safety in long-term supplementation

Indications

💡 **Calcirix-K27 Softgel is recommended for:**

Osteoporosis & osteopenia

Post-menopausal bone loss

Elderly patients at high fracture risk

Cardiovascular patients needing safe calcium supplementation

Chronic joint & musculoskeletal disorders

Adjunct therapy in long-term steroid use

Clinical Advantages

★ Key Benefits of Calcirix-K27:

Smart Bone Protection

ensures calcium goes to bones, not arteries

Triple synergy

Calcitriol + Calcium + Vitamin K2-7

Dual prevention

Prevents fractures & vascular calcification

Improved compliance

with single daily softgel

Long-term safety

Safe for long-term bone health management

Comparison with Other Bone Health Supplements

Parameter	Calcirix-K27 (Ca + D3 + K2-7)	Calcium + Vit D3	Calcitriol Alone
Bone Mineralisation	✓ Excellent	✓ Moderate	✓ Moderate
Vascular Safety	✓ High (prevents calcification)	✗ Absent	✗ Absent
Fracture Prevention	✓ Superior	⚠ Limited	⚠ Limited
Long-Term Suitability	✓ Excellent	⚠ Risk of arterial calcification	⚠ Limited

Dosage & Administration

1

Dosage

1 Softgel daily after meals

Or as directed by physician

2

Important Recommendations

- Adequate hydration & balanced diet recommended
- Avoid excess calcium intake from multiple supplements

Safety & Tolerability

Generally Well-Tolerated

Possible side effects:

- Mild gastric upset or constipation (rare)
- Very rare: hypercalcaemia (with overdose)

Contraindications

- Hypercalcaemia or hypervitaminosis D
- Severe renal impairment
- Hypersensitivity to any ingredient
- Patients on anticoagulant therapy (monitor INR with Vitamin K2 use)

Why Prescribe Calcirix-K27?

 Doctor's Choice For:

Superior bone protection with cardiovascular safety

Prevents arterial calcification unlike plain calcium supplements

Ideal for elderly & post-menopausal women

Trusted triple action: Calcium + D3 + K2-7
