# Product Overview

## Composition (per softgel):

- Calcium Carbonate (eq. to Elemental Calcium) – 500 mg
- Calcitriol – 0.25 mcg
- Magnesium Sulphate – 50 mg
- Zinc Sulphate Monohydrate – 7.5 mg
- Vitamin K2-7 – 45 mcg
- Methylcobalamin – 1500 mcg
- L-Methyl Folate – 800 mcg

### Comprehensive Formula

Bone + nerve + vascular health in one capsule

### Advanced Therapy

Minerals + vitamins + coenzymes for maximum benefit

### Triple Action

Improves bone density, nerve regeneration & cardiovascular safety

### Next-Gen Treatment

Advanced therapy for osteoporosis & neuropathy

# Role of Key Ingredients

## **Calcium Carbonate (500 mg)**

Strengthens bones & teeth, providing essential mineral foundation for skeletal health.

## **Calcitriol (0.25 mcg)**

Enhances calcium absorption & bone mineralisation, optimising calcium utilisation.

## **Magnesium (50 mg)**

Improves bone metabolism & neuromuscular function, supporting overall skeletal integrity.

## **Zinc (7.5 mg)**

Supports collagen synthesis & bone healing, essential for tissue repair and regeneration.

## **Vitamin K2-7 (45 mcg)**

Prevents vascular calcification & drives calcium into bones, ensuring cardiovascular safety.

## **Methylcobalamin (1500 mcg)**

Supports nerve regeneration & reduces neuropathic pain, promoting neurological health.

## **L-Methyl Folate (800 mcg)**

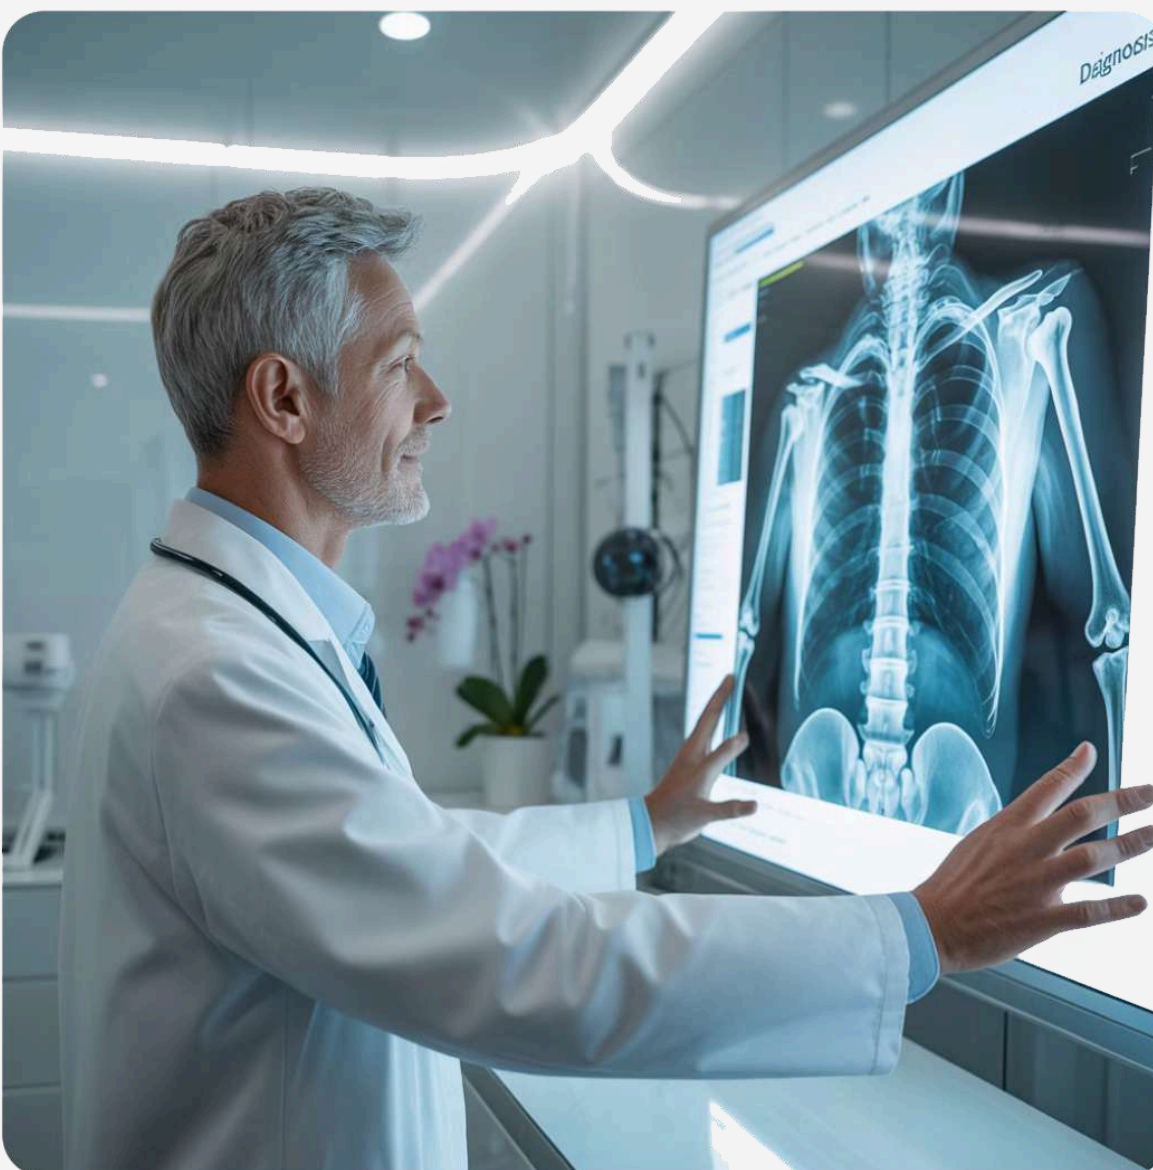

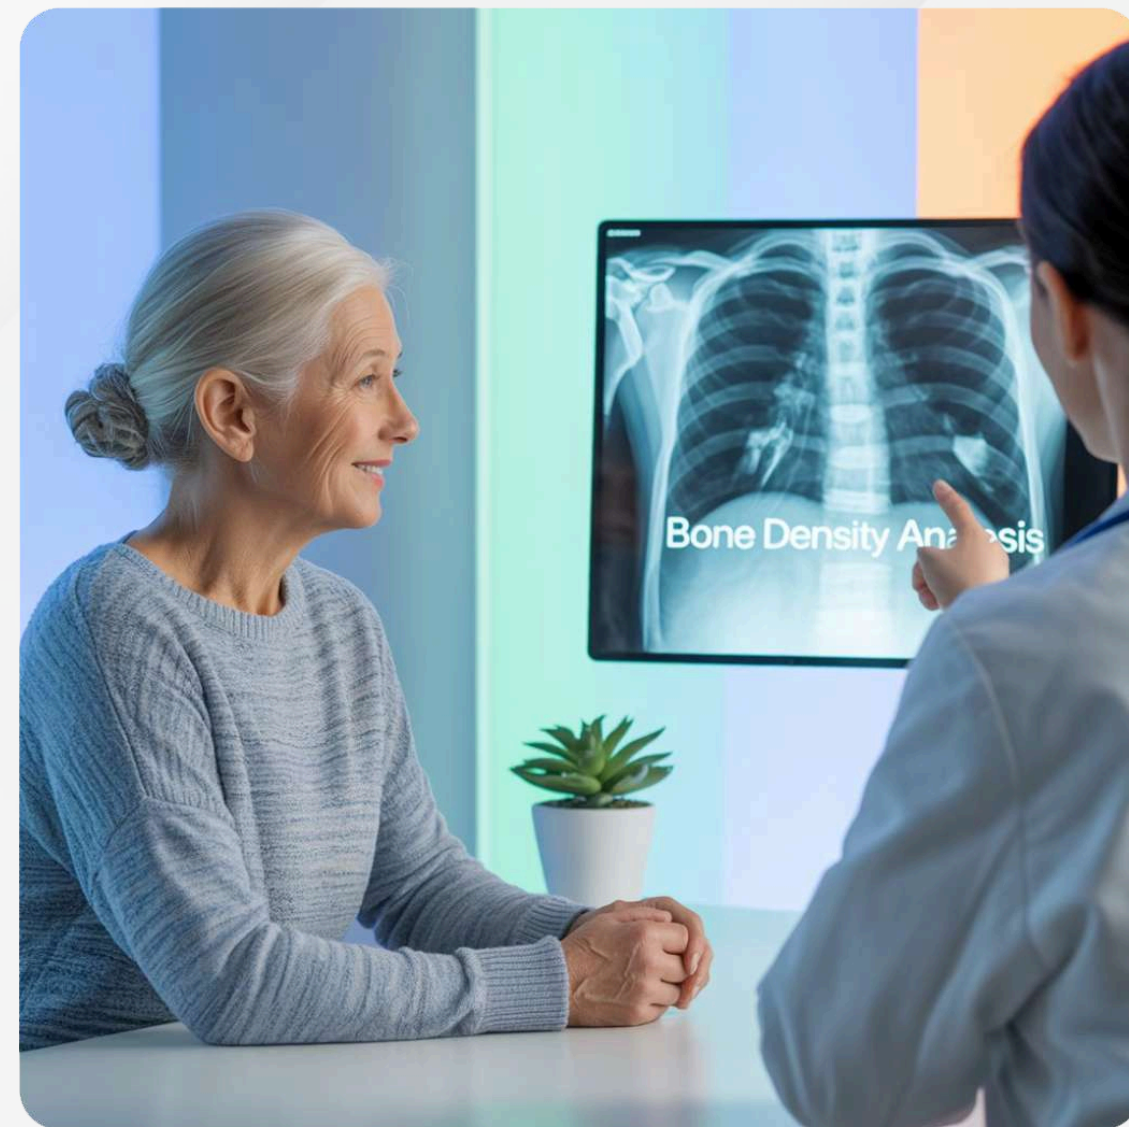

Active folate form synergistic with B12 for neuro & cardiovascular health benefits.

# Indications

Calcirix-MAX Softgel is recommended for:

-  **Osteoporosis & Osteopenia**  
Comprehensive bone density support and fracture prevention therapy.
-  **Post-Menopausal Bone Loss**  
Targeted protection against hormonal bone density decline and fracture prevention.
-  **Diabetic Neuropathy**  
Peripheral nerve weakness management and neurological function restoration.
-  **Cardiovascular Patients**  
Safe calcium supplementation requiring vascular protection and arterial health.
-  **Chronic Musculoskeletal Pain**  
Comprehensive support for muscle weakness and chronic pain management.
-  **Steroid Therapy Adjunct**  
Supportive treatment during long-term corticosteroid use and bone protection.

# Clinical Advantages

## Maximum Strength Formula

Complete bone health formulation with Ca + D3 + Mg + K2-7 for comprehensive skeletal support.

## Vascular Protection

Prevents vascular calcification and improves arterial safety through Vitamin K2-7 action.

## Nerve Regeneration

Supports neurological recovery with B12 + L-Methyl Folate combination therapy.

## Metabolic Support

Combines antioxidant & metabolic support with essential minerals for optimal health.

## Complete Protection

One softgel covers bone, nerve & heart protection in a single convenient dose.

**Key Benefit:** Calcirix-MAX provides comprehensive multi-system protection, addressing bone health, neurological function, and cardiovascular safety simultaneously.

# Comparison with Other Supplements

Parameter	Calcirix-MAX (Multi-Combo)	Calcium + Vit D3	Calcirix-K27 (Ca + D3 + K2-7)
Bone Health	✓ Excellent	✓ Moderate	✓ Strong
Nerve Health	✓ B12 + Folate	✗ Absent	✗ Absent
Vascular Protection	✓ Vitamin K2-7	✗ Absent	✓ Present
Mineral Synergy	✓ Ca + Mg + Zn	✗ Absent	⚠ Limited
Comprehensive Care	✓ Complete	✗ Limited	⚠ Partial

Calcirix-MAX offers the most comprehensive multi-system approach to bone, nerve, and cardiovascular health.

## Dosage & Administration

**1**

### Standard Dosage

**1 Softgel daily after meals**

Take with adequate water for optimal absorption

**2**

### Medical Supervision

**Or as directed by physician**

Dosage may be adjusted based on individual patient needs

### Important Considerations:

- Ensure gap from bisphosphonate therapy if co-administered
- Avoid excessive calcium intake from multiple sources

# Safety & Tolerability

## Generally Well-Tolerated

Extensive clinical experience demonstrates excellent patient tolerance and safety profile.

## Minimal Side Effects

Rare occurrences of mild gastric upset or constipation, typically transient and manageable.

## Overdose Precautions

Very rare hypercalcaemia with overdose; iso-osmotic balance caution in renal impairment.

## Contraindications:

- Hypercalcaemia or hypervitaminosis D
- Severe renal impairment
- Hypersensitivity to formulation components

## Possible Side Effects:

- Mild gastric upset (rare)
- Constipation (rare)
- Hypercalcaemia with overdose (very rare)

# Why Prescribe Calcirix-MAX?

## Complete Multi-System Care

Comprehensive bone, nerve & vascular care in one convenient softgel formulation.

## Advanced Protection

Specially formulated for elderly & post-menopausal women requiring comprehensive support.

## Enhanced Safety Profile

Safer than plain calcium supplements due to K2-7 inclusion preventing vascular calcification.

## Targeted Therapy

Ideal for osteoporosis with associated neuropathy & weakness, addressing multiple conditions.

## Trusted Quality

Premium quality assurance from Human Orthocare, ensuring consistent therapeutic outcomes.

"The doctor's choice for comprehensive bone, nerve, and cardiovascular protection in a single, convenient formulation."
