Product Overview

Composition (per tablet):

Calcium Citrate U.S.P.

750 mg

Calcium Aspartate

500 mg

Calcium Orotate

100 mg

Vitamin D3 I.P.

500 IU

Key Features:

- Triple calcium sources for maximum bioavailability
- Vitamin D3 ensures better absorption & utilisation
- Provides long-lasting support for bone density
- Prevents osteoporosis, fractures & calcium deficiency

Role of Key Ingredients

Calcium Citrate (750 mg)

Highly soluble, better tolerated, prevents GI discomfort. Superior bioavailability compared to other calcium forms.

Calcium Orotate (100 mg)

Enhances calcium penetration into bone tissue. Facilitates deeper mineral deposition in bones.

Calcium Aspartate (500 mg)

Improves cellular calcium uptake, strengthens bone matrix. Enhanced transport across cell membranes.

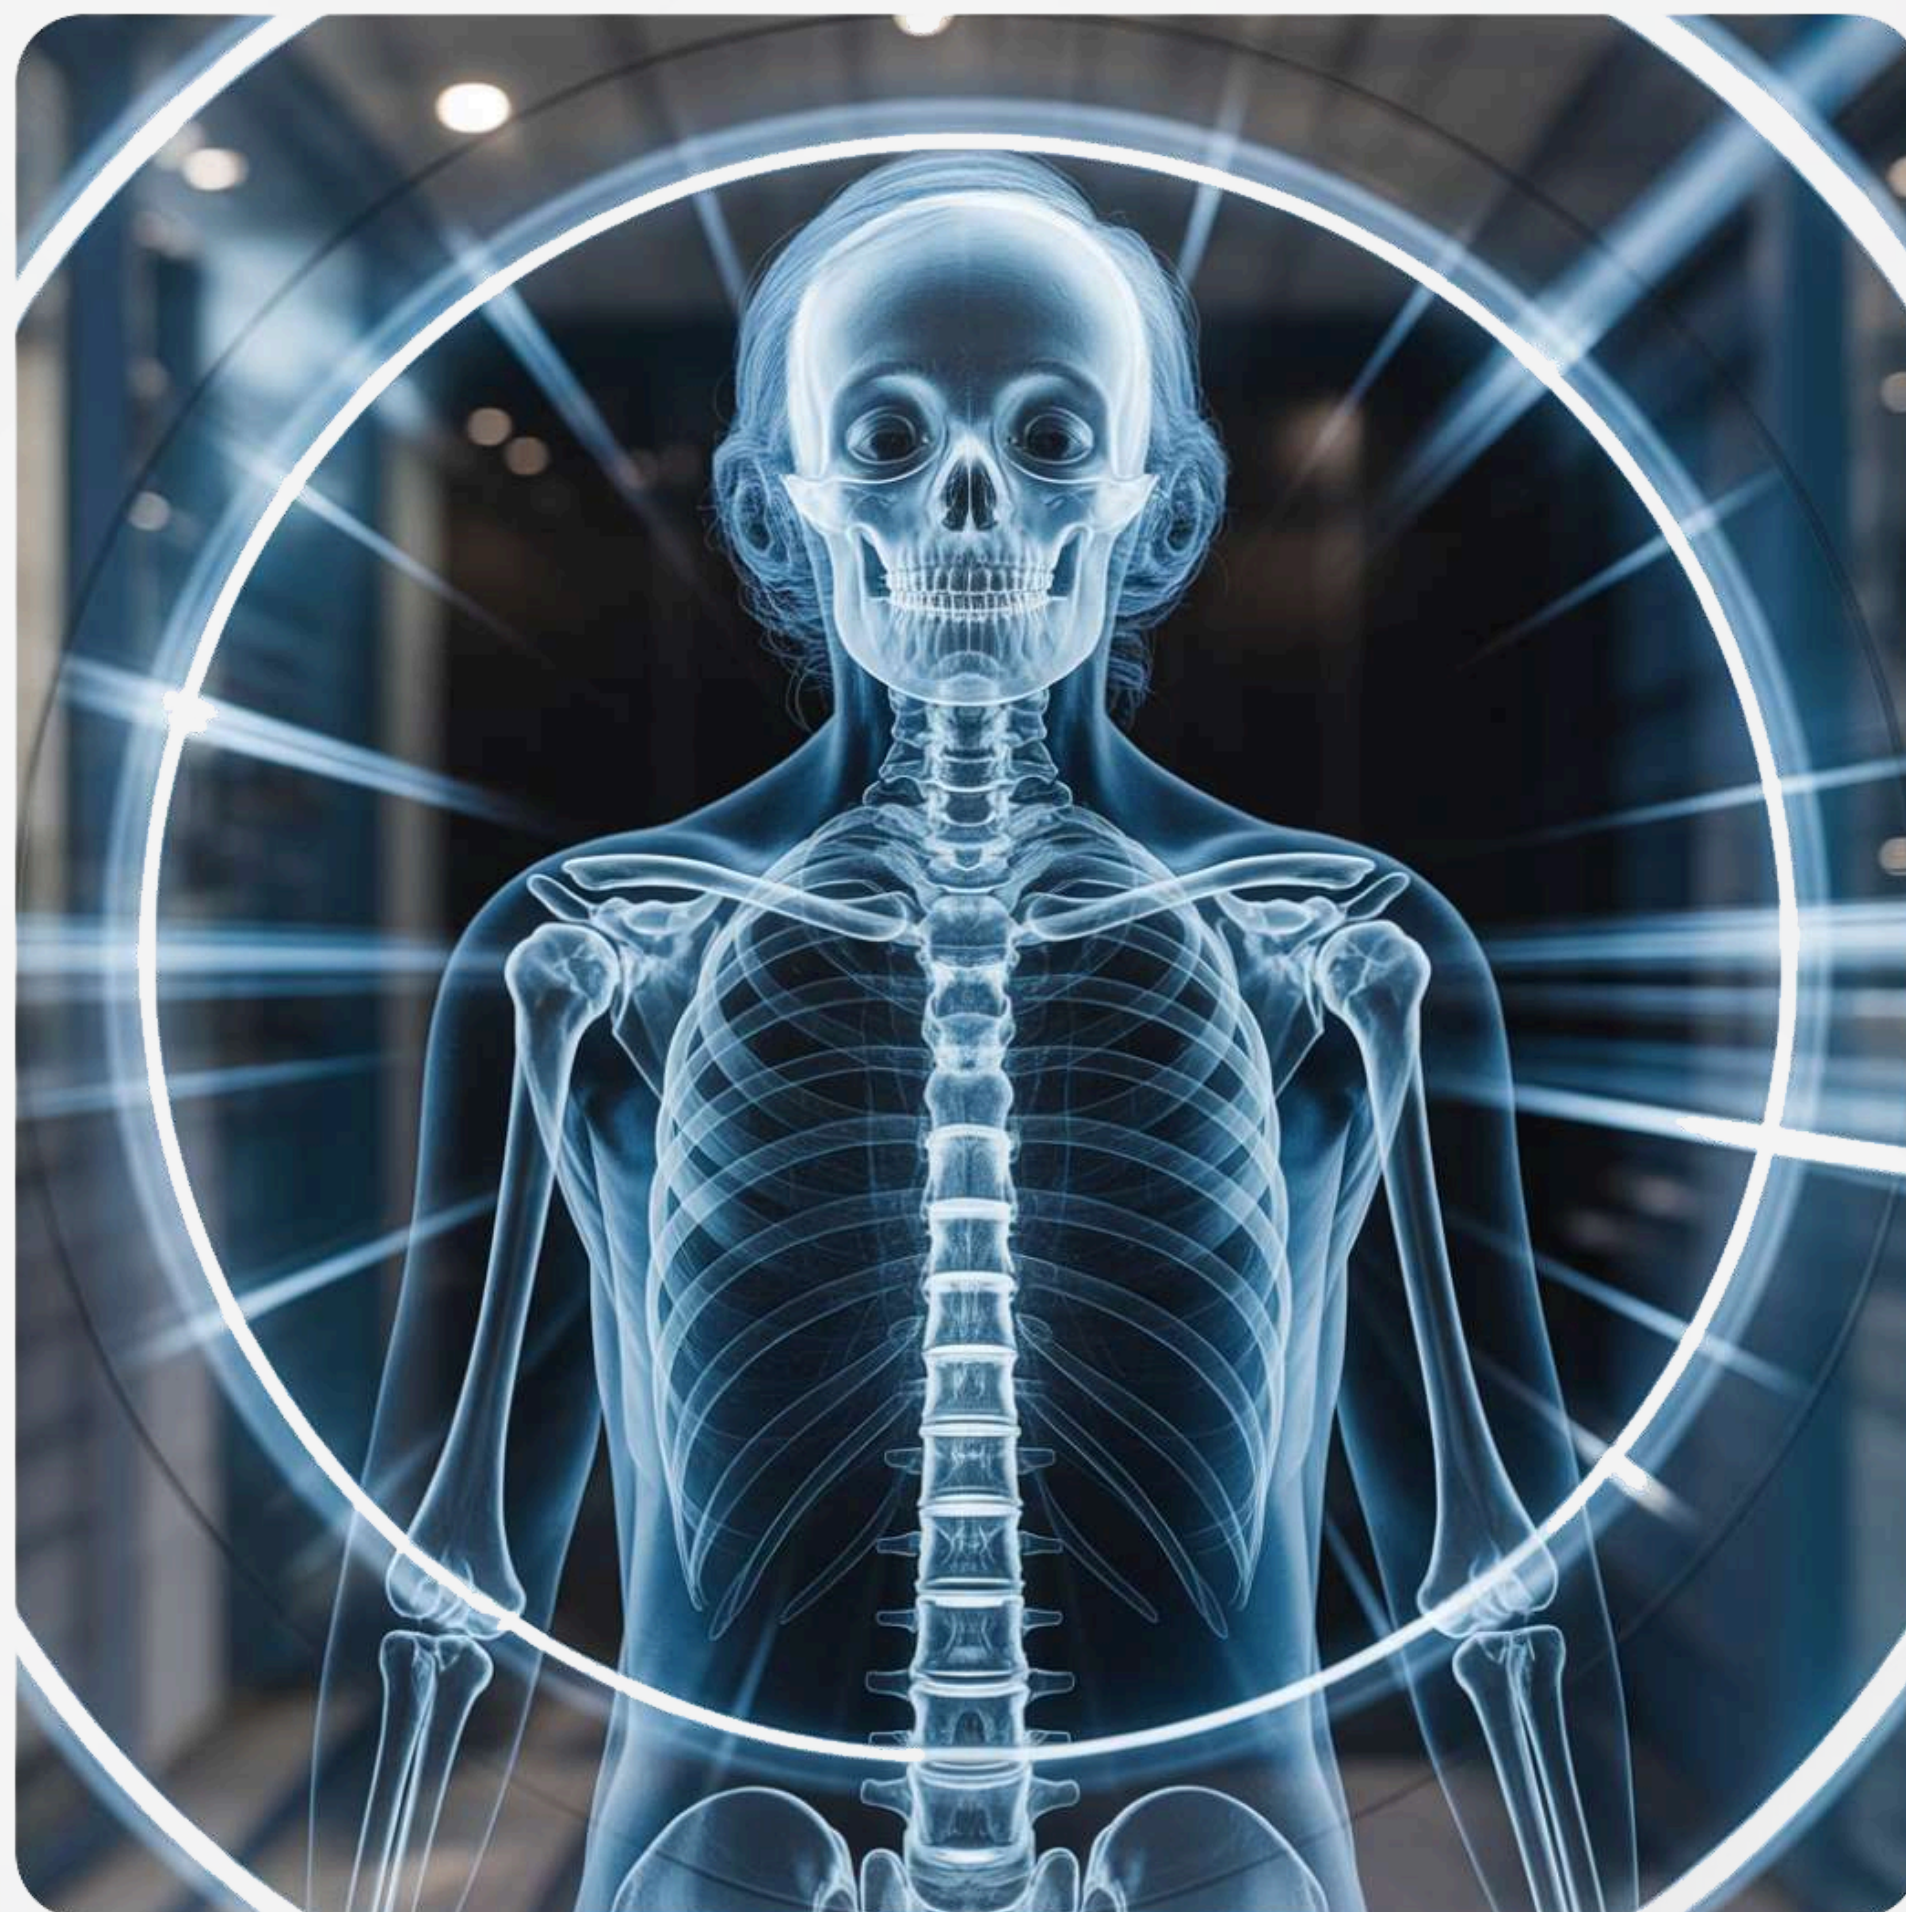

Vitamin D3 (500 IU)

Boosts absorption of calcium & phosphorus, improves bone mineralisation. Essential cofactor for calcium metabolism.

Indications

💡 Calcirix Ultra Tablets are recommended for:

- Osteoporosis & osteopenia prevention & treatment
- Post-menopausal bone health support
- Elderly with chronic calcium & Vitamin D deficiency
- Growing adolescents with high calcium demand
- Post-fracture recovery & orthopaedic surgery cases
- Chronic musculoskeletal weakness & bone pain

Clinical Advantages

☀ Key Benefits of Calcirix Ultra:

Triple Calcium Advantage

Citrate + aspartate + orotate = superior absorption & utilisation

Enhanced Metabolism

Vitamin D3 ensures effective calcium metabolism

Bone Strength

Improves bone density, strength & fracture resistance

Gentle Formula

Gentle on stomach → better compliance

Ultra Protection

Provides "Ultra Protection" in high-risk bone loss patients

Comparison with Other Calcium Supplements

Parameter	Calcirix Ultra (Triple Ca + D3)	Calcirix Coral (Ca + D3)	Plain Calcium Carbonate
Calcium Sources	✓ 3 Types (Citrate, Aspartate, Orotate)	⚠ Single (Coral Ca)	✗ Single only
Absorption	✓ Excellent	✓ Good	⚠ Variable, poor GI tolerance
Bone Protection	✓ Superior	✓ Moderate	⚠ Limited
GI Tolerance	✓ High	✓ Good	✗ Constipation common

Dosage & Administration

Dosage

- **1 Tablet** once or twice daily after meals
- Or as directed by the physician

Important Guidelines

- Ensure adequate hydration
- Avoid simultaneous intake with bisphosphonates or tetracyclines

Safety & Tolerability

🔍 Generally Well-Tolerated

Possible side effects:

- Mild gastric upset or constipation (rare, much lower than carbonate form)
- Very rare: hypercalcaemia with overdose

❌ ⚡ Contraindications:

- Hypercalcaemia or hypervitaminosis D
- Severe renal impairment
- Hypersensitivity to formulation components

Why Prescribe Calcirix Ultra?

 Doctor's Choice For:

01

Maximum calcium absorption with triple salt advantage

Three different calcium sources ensure optimal bioavailability

02

Stronger bone support vs single-source calcium

Superior efficacy compared to conventional calcium supplements

03

Prevents osteoporosis & fractures in high-risk groups

Comprehensive protection for vulnerable patient populations

04

Gentle on stomach → higher compliance

Better patient adherence due to improved tolerability

05

Trusted premium quality from Human Orthocare

Reliable pharmaceutical excellence you can depend on
