Product Overview

Composition (per softgel):

 **Cholecalciferol (Vitamin D3 I.P.) – 2,000 IU**

Key Features:

-  **Convenient daily dose of Vitamin D3**
Optimal 2,000 IU strength for daily supplementation
-  **Supports calcium absorption & bone strength**
Essential for maintaining healthy skeletal system
-  **Improves immunity, muscle health & overall vitality**
Comprehensive health benefits beyond bone health
-  **Corrects Vitamin D deficiency in all age groups**
Suitable for children, adults, and elderly patients

Why Cholecalciferol (Vitamin D3)?

Vitamin D3 (Cholecalciferol)

Calcium & Phosphorus Absorption

- ✓ Promotes optimal absorption from the gut for stronger bones

Bone & Teeth Strength

- ✓ Ensures robust skeletal system and dental health

Disease Prevention

- ✓ Prevents rickets, osteomalacia & osteoporosis effectively

Muscle Function

- ✓ Enhances muscle performance & reduces fall risk in elderly

Immunity Boost

- ✓ Strengthens immune system & reduces infection risk

★ One softgel a day keeps Vitamin D deficiency away

Clinical Indications

💡 Calcirix-D3 2K is recommended for comprehensive bone health and immunity support:

Vitamin D Deficiency & Insufficiency

Primary treatment for correcting low vitamin D levels across all age groups

Osteoporosis & Osteopenia Management

Essential component in preventing and managing bone density loss

Rickets & Osteomalacia

Prevents rickets in children and treats osteomalacia in adults effectively

Post-menopausal Bone Health

Critical support for women experiencing hormonal bone density changes

Elderly Fracture Prevention

Reduces fracture risk and fall incidents in older patients

Immune System Support

Strengthens immunity in patients with recurrent infections

Clinical Advantages

★ Key Benefits of Calcirix-D3 60K Softgel:

Rapid Deficiency Correction

Corrects deficiency faster than daily lower doses

Comprehensive Health

Improves bone, muscle & immune health

Superior Absorption

Convenient softgel format → better absorption vs tablets

Physician Approved

Safe & effective under physician guidance

Enhanced Compliance

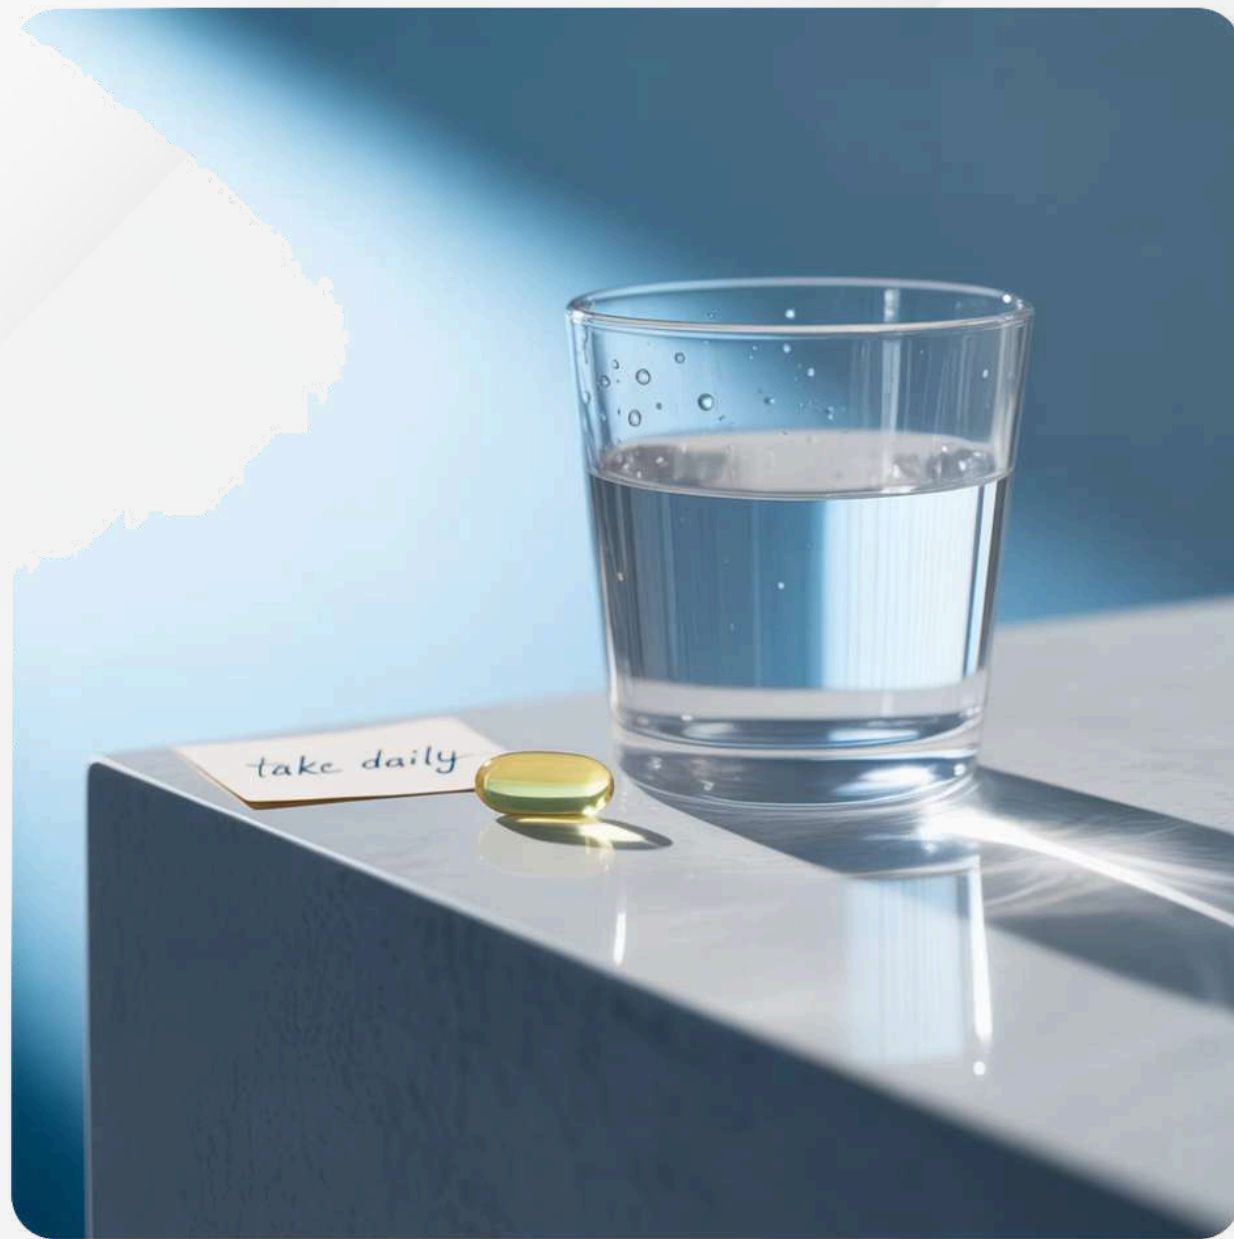

Weekly dosage ensures patient compliance

Comparison with Other Vitamin D Preparations

Understanding the advantages of Calcirix-D3 2K over alternative vitamin D supplementation options:

Parameter	Calcirix-D3 2K Softgel	High-Dose 60K IU Weekly	Basic Calcium Tablets
Daily Coverage	✓ Yes (2000 IU/day)	⚠ Weekly bolus	✗ Absent
Absorption	✓ Softgel, high bioavailability	✓ Good	✗ Limited
Bone Health	✓ Strong (with calcium diet)	✓ Strong	⚠ Only partial
Safety for Long Term	✓ Excellent	⚠ Risk of fluctuation	⚠ Incomplete support

✓ **Clinical Advantage:** Calcirix-D3 2K provides consistent daily vitamin D levels without the peaks and valleys associated with high-dose weekly supplementation.

Dosage & Administration

Recommended Dosage

Standard Dosing

1 Softgel daily after meals

Take with food to enhance absorption and reduce gastric irritation

Professional Guidance

Or as directed by physician

Dosage may be adjusted based on individual patient needs and vitamin D levels

Important Recommendations

- Adequate calcium intake recommended alongside vitamin D supplementation
- Monitor vitamin D & calcium levels during long-term therapy
- Regular follow-up with healthcare provider advised

Safety & Tolerability Profile

Generally Well-Tolerated

Calcirix-D3 2K has an excellent safety profile when used as directed, with minimal side effects reported in clinical practice.

Possible Side Effects

(Rare, typically with overdose)

- Nausea and gastrointestinal discomfort
- Constipation
- Hypercalcemia (very rare with recommended dosing)

 **Note:** Side effects are uncommon when taken as prescribed and typically resolve with dosage adjustment.

Contraindications

- **Hypercalcemia or Hypervitaminosis D**

Pre-existing elevated calcium or vitamin D levels

- **Severe Renal Impairment**

Compromised kidney function affecting calcium metabolism

- **Hypersensitivity**

Known allergy to vitamin D3 or softgel components

Why Prescribe Calcirix-D3 2K?

The Doctor's Choice

✓ Optimal Daily Dose

Provides the internationally recommended 2,000 IU of vitamin D3 for maintaining adequate serum levels year-round, ensuring consistent therapeutic benefits.

✓ Superior Absorption

Convenient softgel format with enhanced bioavailability ensures maximum absorption and patient compliance compared to traditional tablets.

✓ Comprehensive Bone Health

Ensures optimal bone strength and effective fracture prevention, particularly beneficial for elderly and osteoporotic patients.

✓ Holistic Health Benefits

Boosts immunity, enhances muscle function, and promotes overall vitality beyond just bone health support.

✓ Trusted Quality

Manufactured to the highest pharmaceutical standards by **Human Orthocare**, ensuring consistent quality and therapeutic efficacy.
