Product Overview

Composition (per softgel):

Cholecalciferol (Vitamin D3 I.P.)

60,000 IU

Key Features:

- High-dose Vitamin D3 softgel for weekly/biweekly dosing
- Rapid correction of Vitamin D deficiency
- Improves calcium absorption & bone mineralisation
- Enhances immunity & muscle function

Why Cholecalciferol (Vitamin D3)?

Boosts calcium & phosphorus absorption

Prevents rickets, osteomalacia & osteoporosis

Improves bone density & fracture resistance

Enhances muscle function & reduces fall risk in elderly

Strengthens immunity, reduces recurrent infections

✔ ☀ One softgel = Complete weekly dose of Vitamin D3

Indications

💡 Calcirix-D3 60K Softgel is recommended for:

Vitamin D deficiency treatment & prophylaxis

Osteoporosis & osteopenia management

Post-menopausal women with bone weakness

Elderly patients at fracture risk

Rickets & osteomalacia

Adjunct therapy in chronic illnesses, diabetes & immune deficiency

Clinical Advantages

★ Key Benefits of Calcirix-D3 60K Softgel:

Rapid Deficiency Correction

Corrects deficiency faster than daily lower doses

Comprehensive Health

Improves bone, muscle & immune health

Superior Absorption

Convenient softgel format → better absorption vs tablets

Physician Approved

Safe & effective under physician guidance

Enhanced Compliance

Weekly dosage ensures patient compliance

Comparison with Other Vitamin D Preparations

Parameter	Calcirix-D3 60K Softgel	Calcirix-D3 2K Softgel (2000 IU)	Calcium Tablets
Strength	✓ High weekly dose	✓ Daily maintenance dose	✗ No D3
Deficiency Correction	✓ Rapid	⚠ Gradual	✗ Absent
Compliance	✓ Weekly (easy)	⚠ Daily intake	✗ Limited
Absorption	✓ High (softgel format)	✓ Good	✗ Low

Dosage & Administration

1

Dosage

1 **Softgel weekly** or as directed by physician

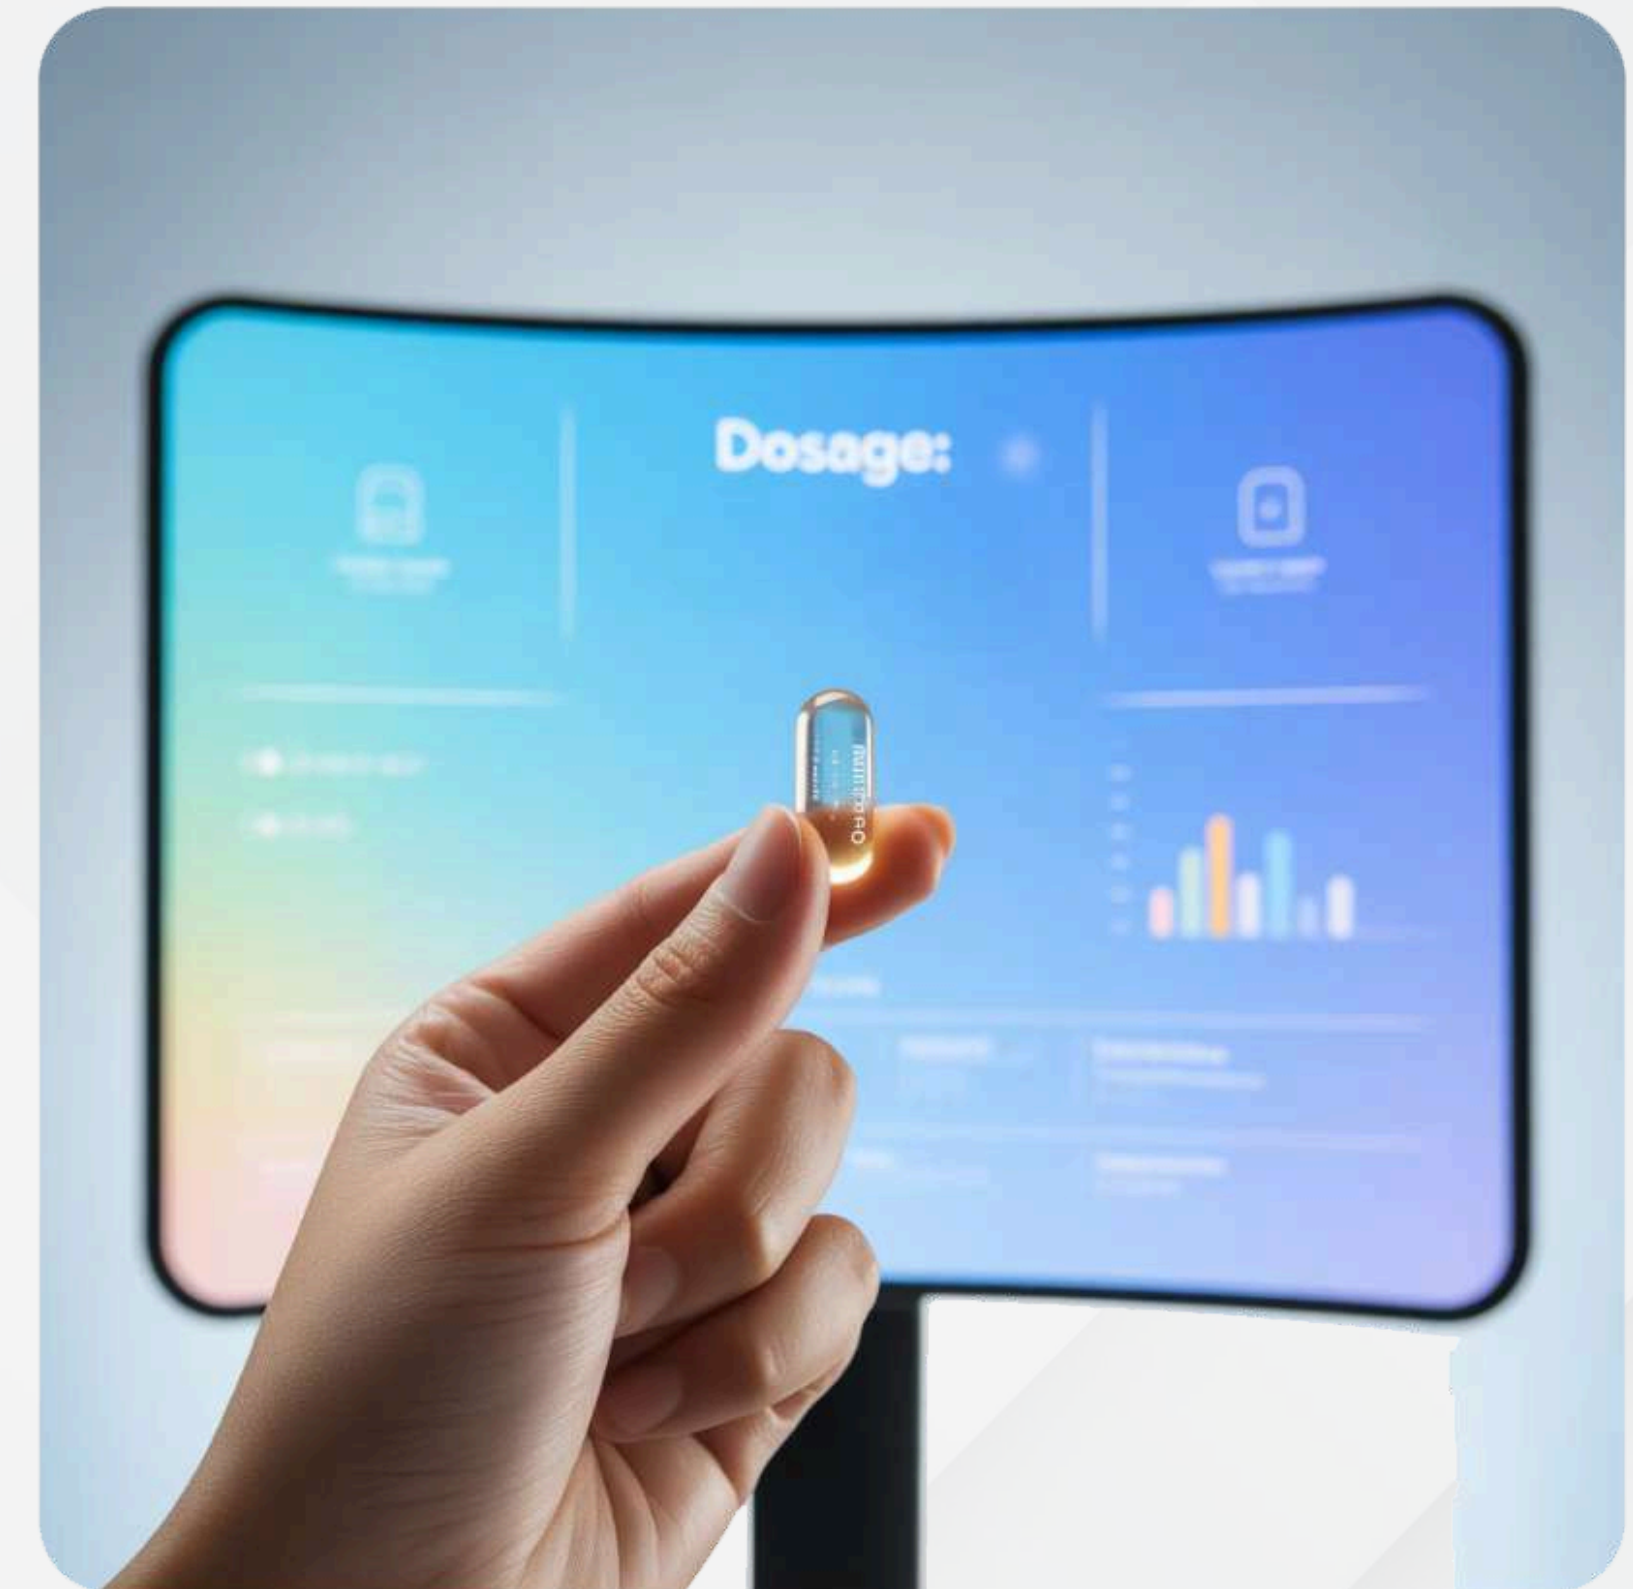

2

Administration

Taken **after meals** for better absorption

⚠️ **Important Guidelines:**

- Avoid daily use unless prescribed
- Monitor calcium & Vitamin D levels in long-term use

Safety & Tolerability

Generally Well-Tolerated

Possible side effects (rare, with overdose):

- Nausea, constipation, metallic taste
- Hypercalcaemia (very rare with excess intake)

Contraindications

- Hypercalcaemia or Vitamin D toxicity
- Severe renal impairment
- Hypersensitivity to Vitamin D3

-  Always consult healthcare professionals before starting high-dose Vitamin D3 supplementation

Why Prescribe Calcirix-D3 60K Softgel?

 Doctor's Choice For:

High-potency weekly dose

Rapid deficiency correction

Superior absorption

Softgel form vs powders/tablets

Enhanced compliance

Less frequent dosing schedule

Comprehensive benefits

Strengthens bones, immunity & overall vitality

Trusted quality
