Product Overview

Composition (per tablet):

Etoricoxib I.P.

60 mg

Selective COX-2 inhibitor for potent anti-inflammatory action

Thiocolchicoside I.P.

4 mg

Centrally acting muscle relaxant for spasm relief

Key Features:

- **Etoricoxib:** selective COX-2 inhibitor → strong anti-inflammatory & analgesic
- **Thiocolchicoside:** centrally acting muscle relaxant, relieves stiffness & spasm
- Dual therapy for musculoskeletal pain + muscle contraction
- Non-sedating relaxant profile → better compliance

Mechanism of Action

Etoricoxib

- Inhibits COX-2 enzyme → blocks prostaglandin synthesis
- Provides potent anti-inflammatory & analgesic effect
- Gastro-safe vs conventional NSAIDs

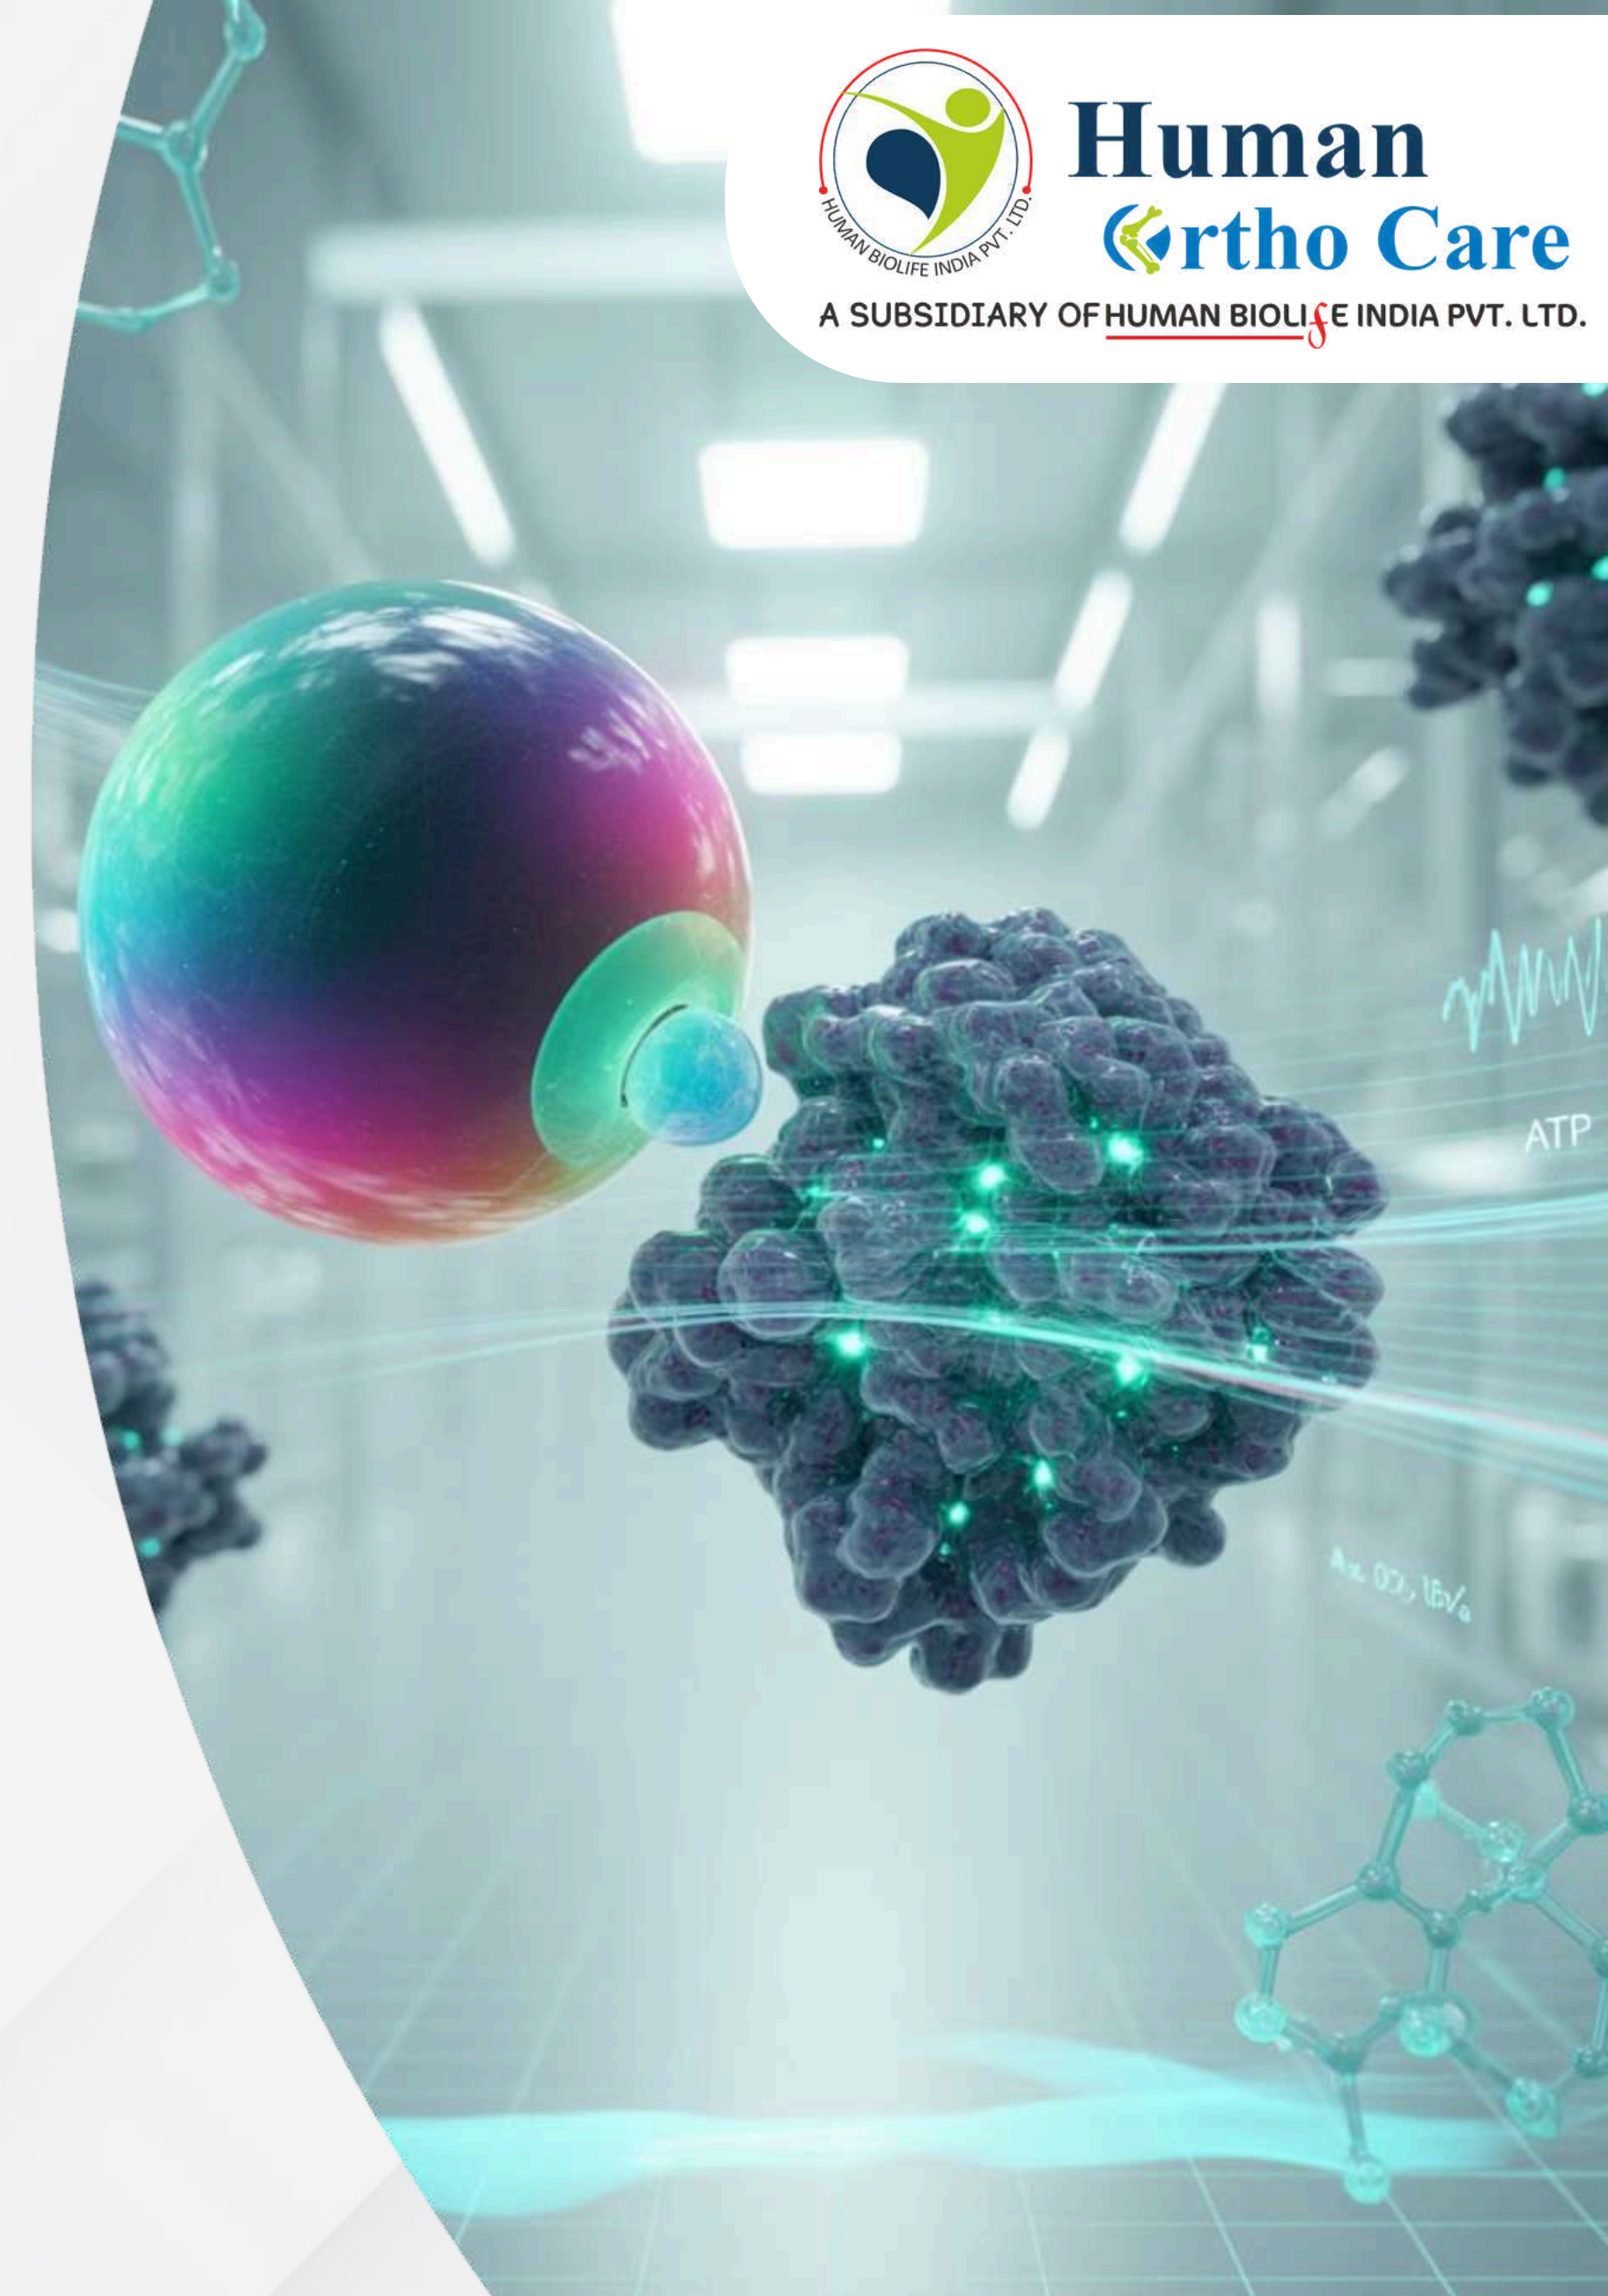

Thiocolchicoside

- Binds to GABA-A & glycine receptors in CNS
- Reduces muscle hyperexcitability → relaxes spasm
- Improves joint mobility & muscle flexibility

Result → Pain-free movement with muscle relaxation

Indications

💡 **Ethicox-TH4 Tablets are recommended for:**

- **Acute low back pain with spasm**
- **Cervical & lumbar spondylosis**
- **Osteoarthritis & rheumatoid arthritis with stiffness**
- **Post-traumatic musculoskeletal pain**
- **Sports injuries with muscle spasm**
- **Orthopaedic & post-surgical recovery**

Clinical Advantages

☀ Key Benefits of Ethicox-TH4:

Dual Action

Combines potent analgesic + safe muscle relaxant

Faster Recovery

Provides faster recovery in painful musculoskeletal conditions

Non-Sedating

Safer for daily & working patients

Convenient Dosing

Twice-daily dosing for better compliance

Quality of Life

Improves quality of life in chronic back & joint pain

Comparison with Other Combinations

Parameter	Ethicox-TH4 (Etoricoxib + Thiocolchicoside)	Aceclo + Tizanidine	NSAIDs Alone
Anti-inflammatory	✓ Strong (COX-2 Selective)	✓ Good	✓ Moderate
Muscle Relaxation	✓ Strong, Non-sedating	⚠ Sedating	✗ None
GI Safety	✓ High (COX-2 selective)	⚠ Moderate	✗ Poor
Compliance	✓ Better	⚠ Limited	⚠ Limited

Dosage & Administration

Dosage

1 Tablet once or twice daily after meals

Duration as per physician advice

Important Precautions

-  Avoid alcohol or other sedatives
-  Use lowest effective dose for shortest duration

Safety & Tolerability

Generally Well-Tolerated

Possible side effects:

- Mild gastric upset, headache, dizziness (rare)
- Muscle weakness (very rare, dose-dependent)

Contraindications

⊘ Avoid in:

- Severe hepatic, renal or cardiac impairment
- Pregnancy & lactation
- Hypersensitivity to Etoricoxib or Thiocolchicoside

Why Prescribe Ethicox-TH4?

Doctor's Choice For:

Dual relief → pain + spasm

Non-sedating muscle relaxant with better tolerability

Safer gastric profile than NSAID + relaxant combos

Effective in back pain, spondylosis & post-traumatic cases
