Product Overview

Composition (per tablet):

Tolperisone HCl

150 mg

Centrally acting muscle relaxant that reduces spasm and stiffness

Etoricoxib I.P.

60 mg

Selective COX-2 inhibitor providing potent anti-inflammatory and analgesic effects

Key Features:

- Dual action formula relieves both **pain and spasm** in musculoskeletal conditions
- Better tolerability compared to traditional NSAID and relaxant combinations
- Targeted relief for comprehensive patient care

Mechanism of Action

Tolperisone Action

- Acts on spinal reflex pathways to reduce muscle hypertonicity
- Improves blood circulation in affected muscles
- Provides muscle relaxation without sedation

Etoricoxib Action

- Selective COX-2 inhibitor blocks prostaglandin synthesis
- Reduces inflammation, swelling and pain
- Gastro-safe compared to traditional NSAIDs

Result: Rapid pain relief with improved mobility and muscle relaxation

Indications

Ethicox-TP Tablets are recommended for comprehensive treatment of:

Acute Musculoskeletal Pain

Effective relief for acute pain conditions with associated muscle spasm

Spinal Conditions

Low back pain, cervical and lumbar spondylosis management

Osteoarthritis

Joint pain relief with associated muscle stiffness reduction

Trauma & Surgery

Post-traumatic muscle pain and post-operative orthopaedic pain relief

Neuromuscular Conditions

Effective management of neuromuscular painful conditions

Clinical Advantages

Dual Relief

Simultaneously relaxes muscles and reduces inflammation for comprehensive treatment

Fast Recovery

Rapid improvement in back pain, spasm and joint stiffness

Non-Sedating

Better patient compliance with maintained alertness and daily function

Enhanced Safety

Gastro-safe and cardio-tolerant profile with Etoricoxib's selectivity

Quality of Life

Significant improvement in daily activities and musculoskeletal function

Comparison with Other Combinations

Parameter	Ethicox-TP (Tolperisone + Etoricoxib)	Aceclofenac + Tizanidine	NSAIDs Alone
Muscle Relaxation	✓ Strong (Tolperisone)	✓ Moderate	✗ None
Pain Relief	✓ Potent (Etoricoxib)	✓ Good	✓ Moderate
Sedation	✗ Non-Sedating	⚠ Common	✗ Absent
GI Safety	✓ High (COX-2 selective)	⚠ Moderate	✗ Poor

Dosage & Administration

Recommended Dosage

1 Tablet once or twice daily as per physician advice

To be taken **after meals** for optimal absorption

Treatment Duration

Duration of therapy depends on severity of pain and spasm

Regular monitoring recommended for extended use

Important Precautions

Avoid alcohol and other CNS depressants whilst on therapy. Always follow physician guidance for optimal treatment outcomes.

Safety & Tolerability

Generally Well-Tolerated

Possible Side Effects:

- Mild gastric upset (rare)
- Dizziness (rare)
- Peripheral oedema with prolonged Etoricoxib use (rare)

Contraindications:

- Severe hepatic, renal or cardiac impairment
- Active peptic ulcer or GI bleeding
- Pregnancy and lactation
- Hypersensitivity to any ingredients

Why Prescribe Ethicox-TP?

The Doctor's Choice For Comprehensive Pain Management

Dual-Action Formula

Relieves both pain and spasm simultaneously, addressing the root cause and symptoms

Non-Sedating

Safer for daytime use, allowing patients to maintain normal daily activities

Gastro-Safe Profile

Better tolerated than traditional NSAID combinations with reduced GI risk

Versatile Application

Ideal for orthopaedic, neurologic and post-traumatic pain conditions

Reliable Quality

Trusted formulation from Human Orthocare with consistent therapeutic outcomes
