## Product Overview

### Composition (per tablet):

#### **Aceclofenac I.P.**

**100 mg**

NSAID for pain and inflammation

#### **Paracetamol I.P.**

**325 mg**

Analgesic for pain relief

#### **Serratiopeptidase I.P.**

**15 mg**

Proteolytic enzyme for swelling

### Key Features:

- Combines **NSAID + Analgesic + Proteolytic Enzyme**
- Relieves pain, inflammation & oedema simultaneously
- Accelerates recovery in trauma & post-surgical conditions
- Ideal for acute & chronic musculoskeletal pain

## Mechanism of Action

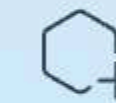

### **Aceclofenac**

Inhibits COX enzymes → reduces prostaglandins → anti-inflammatory & analgesic effects

### **Paracetamol**

Centrally inhibits prostaglandin synthesis → fast pain & fever control

### **Serratiopeptidase**

Proteolytic enzyme → reduces inflammatory mediators & oedema → accelerates healing

### **Result**

Faster, stronger & more comprehensive pain management through synergistic triple action

# Indications

Flezonac-SP Tablets are recommended for a wide range of conditions requiring comprehensive pain, inflammation, and swelling management:

## **Post-operative pain, swelling & inflammation**

Effective management following surgical procedures

## **Trauma, sports injuries, sprains & strains**

Comprehensive treatment for acute musculoskeletal injuries

## **Dental pain & post-extraction swelling**

Rapid relief following dental procedures

## **ENT infections with oedema**

Sinusitis, tonsillitis, pharyngitis with inflammatory swelling

## **Arthritis & spondylitis with painful inflammation**

Long-term management of chronic joint conditions

## **Gynaecological post-surgical inflammation**

Specialised care following gynaecological procedures

# Clinical Advantages

## Triple Relief

Simultaneous management of **Pain + Inflammation + Swelling** in a single formulation

## Versatile Application

Suitable for orthopaedic, dental, ENT & surgical specialities

## Faster Resolution

Superior oedema reduction compared to Aceclofenac + Paracetamol combinations alone

## Better Compliance

Improved patient adherence with convenient single-tablet therapy

## Accelerated Healing

Enhanced tissue repair and recovery through proteolytic enzyme action

# Comparison with Other Combinations

Flezonac-SP demonstrates superior therapeutic outcomes compared to conventional pain management approaches:

Parameter	Flezonac-SP (Aceclo + PCM + Serratio)	Aceclo + PCM	NSAIDs Alone
Pain Relief	✔ Strong	✔ Strong	✔ Moderate
Inflammation Control	✔ Strong	✔ Strong	✔ Moderate
Swelling/Oedema Control	✔ Yes (Serratiopeptidase)	✗ No	✗ No
Recovery Speed	✔ Faster	⚠ Slower	⚠ Limited

# Dosage & Administration

## ⚠ Important Guidelines

- Duration depends on severity & clinical condition
- Use lowest effective dose for shortest duration
- Take with food to minimise gastric irritation
- Follow physician's specific instructions

### Standard Dosage

**1 Tablet twice daily after meals**

Or as directed by physician

# Safety & Tolerability

## ✓ Generally Well-Tolerated

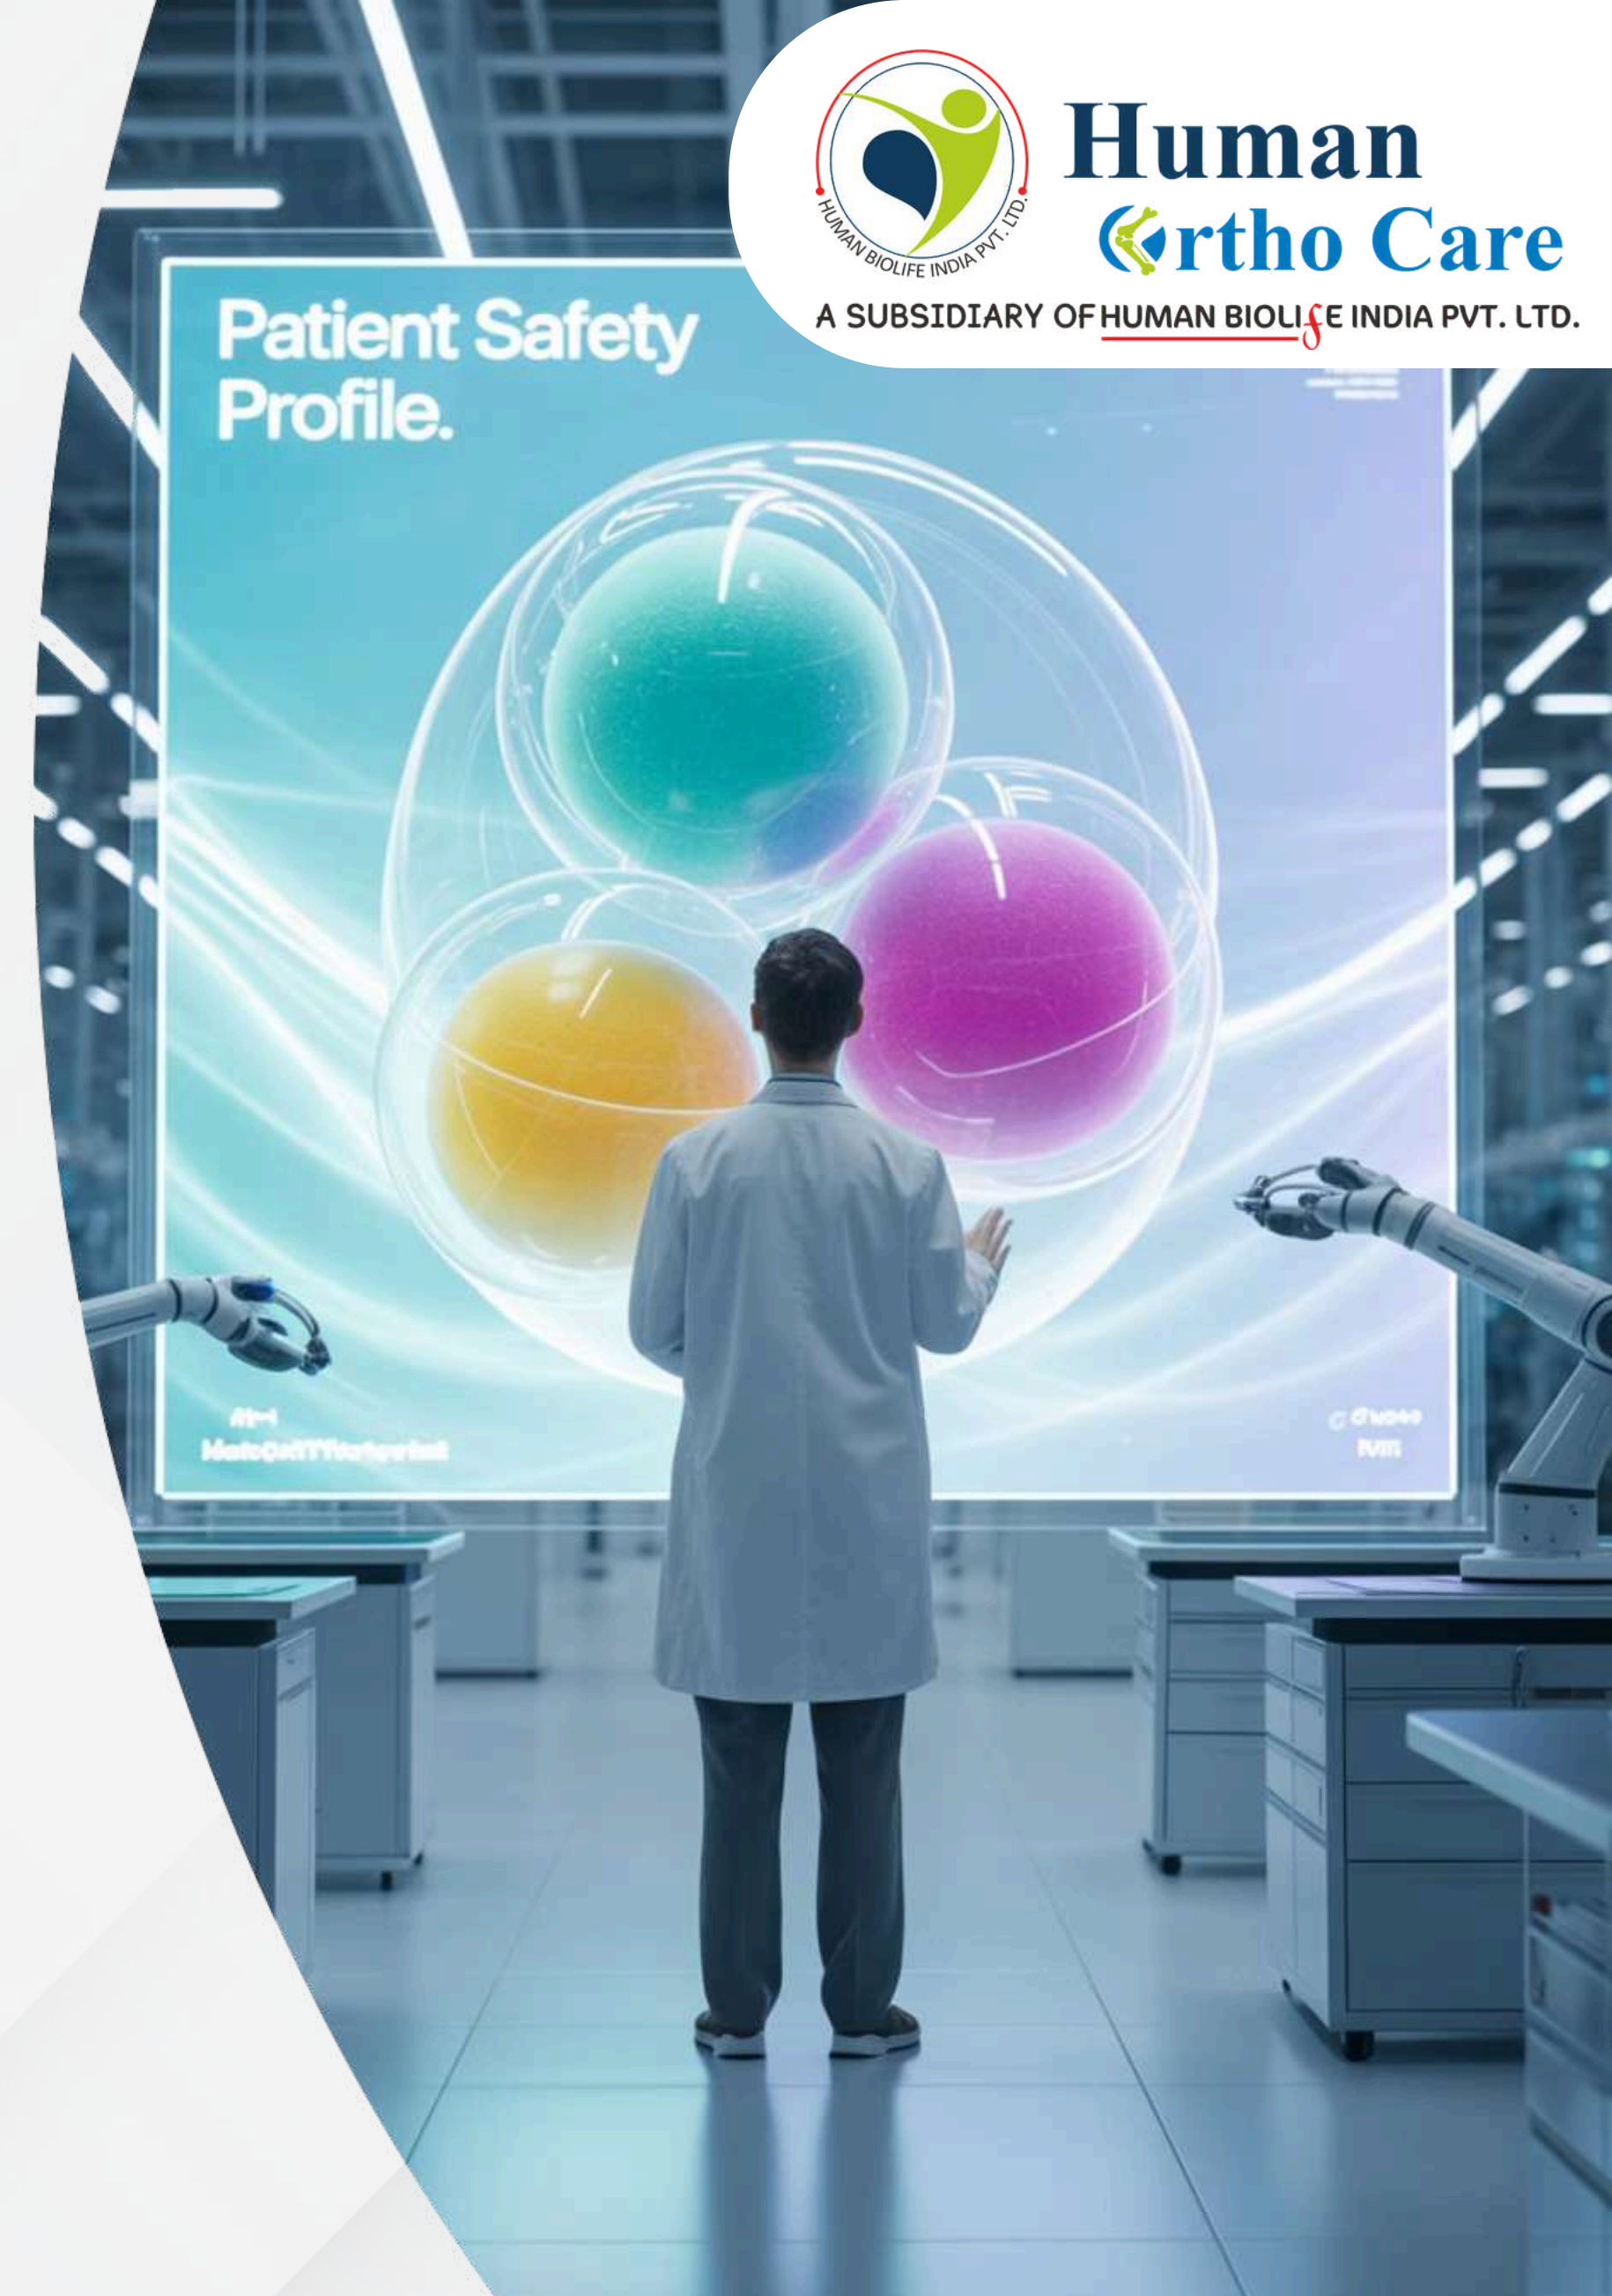

Flezonac-SP has demonstrated good safety profile in clinical use

### Possible Side Effects:

- Mild gastric irritation, nausea
- Rare: allergic skin rash
- Serratiopeptidase may rarely cause GI discomfort

## ✗ Contraindications:

- Active peptic ulcer or GI bleeding
- Severe hepatic/renal impairment
- Hypersensitivity to NSAIDs or Serratiopeptidase
- Pregnancy & lactation (use with caution)

## Why Prescribe Flezonac-SP?

The comprehensive solution for modern pain management needs

### Triple-Action Control

Comprehensive management of pain, inflammation & swelling in one formulation

### Faster Recovery

Accelerated healing in trauma, dental & surgical cases through enhanced oedema resolution

### Musculoskeletal Excellence

Highly effective in arthritis & musculoskeletal pain management

### Enhanced Mobility

Reduces oedema, improves mobility & patient comfort significantly

### Reliable Formulation

Trusted **Human Orthocare** quality and consistency
