Product Overview

Composition (per tablet):

Aceclofenac I.P.

100 mg

Thiocolchicoside I.P.

4 mg

Key Features:

- **Aceclofenac:** potent NSAID → relieves pain & inflammation
- **Thiocolchicoside:** centrally acting muscle relaxant → reduces stiffness & spasm
- **Dual therapy** → comprehensive control of musculoskeletal pain with spasm
- **Non-sedating relaxant** → safe for daily activities

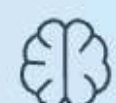

Mechanism of Action

Aceclofenac

- Inhibits COX enzymes → reduces prostaglandins
- Provides strong anti-inflammatory & analgesic effect

Thiocolchicoside

- Acts on GABA-A & glycine receptors in CNS
- Relieves painful muscle spasm & improves mobility
- Non-sedative & well-tolerated

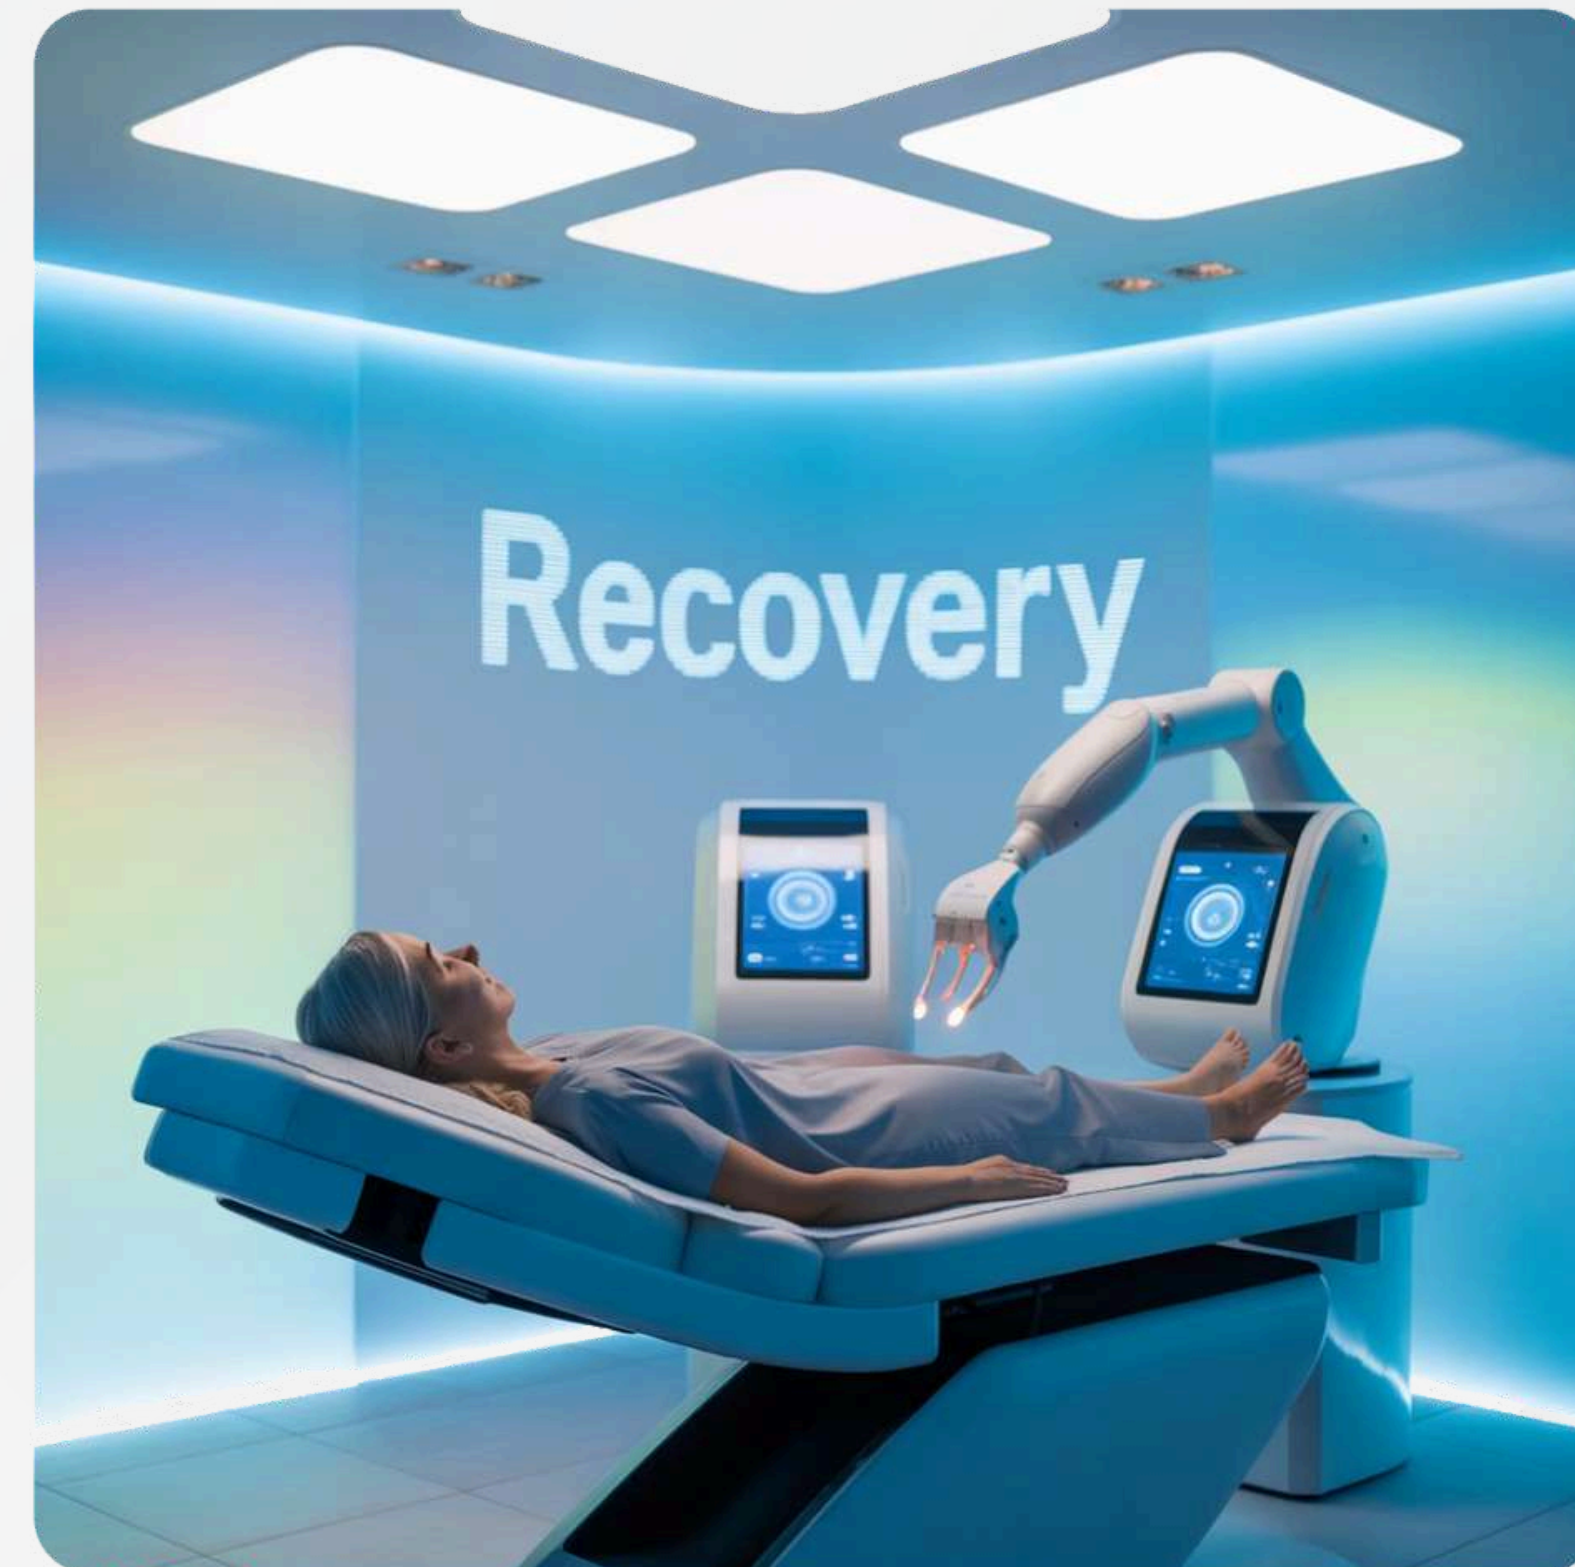

Result: Effective relief in musculoskeletal pain with stiffness

Indications

💡 Flezonac-TH4 Tablets are recommended for:

- Acute low back pain & cervical spondylosis
- Osteoarthritis & rheumatoid arthritis with stiffness
- Musculoskeletal pain with muscle spasm

- Sports injuries & sprains
- Post-traumatic pain & orthopaedic recovery

Clinical Advantages

★ Key Benefits of Flezonac-TH4:

Dual Relief

Pain + Spasm control in one formulation

Improved Mobility

Enhanced patient comfort and movement

Non-Sedating

Better compliance for daily activities

Versatile Treatment

Suitable for both acute & chronic musculoskeletal pain

Rapid Relief

Provides rapid & sustained pain relief
