Product Overview

Composition (per tablet):

Aceclofenac I.P.

100 mg

Potent NSAID with anti-inflammatory & analgesic effects

Thiocolchicoside I.P.

8 mg

High-strength centrally acting muscle relaxant

Key Features:

- Dual therapy → effective in **severe musculoskeletal pain with spasm**
- Non-sedating → better patient compliance in active individuals
- Enhanced therapeutic efficacy through synergistic action

Advanced Formulation

Combining proven anti-inflammatory action with powerful muscle relaxation for comprehensive pain management.

Mechanism of Action

Aceclofenac

- ✓ Selective COX inhibition → ↓ prostaglandins
- ✓ Relieves inflammation, swelling & pain

Thiocolchicoside (8 mg)

- ✓ Binds to GABA-A & glycine receptors → inhibits muscle hyperexcitability
- ✓ Strong relief from severe spasm & stiffness
- ✓ Maintains mobility without sedation

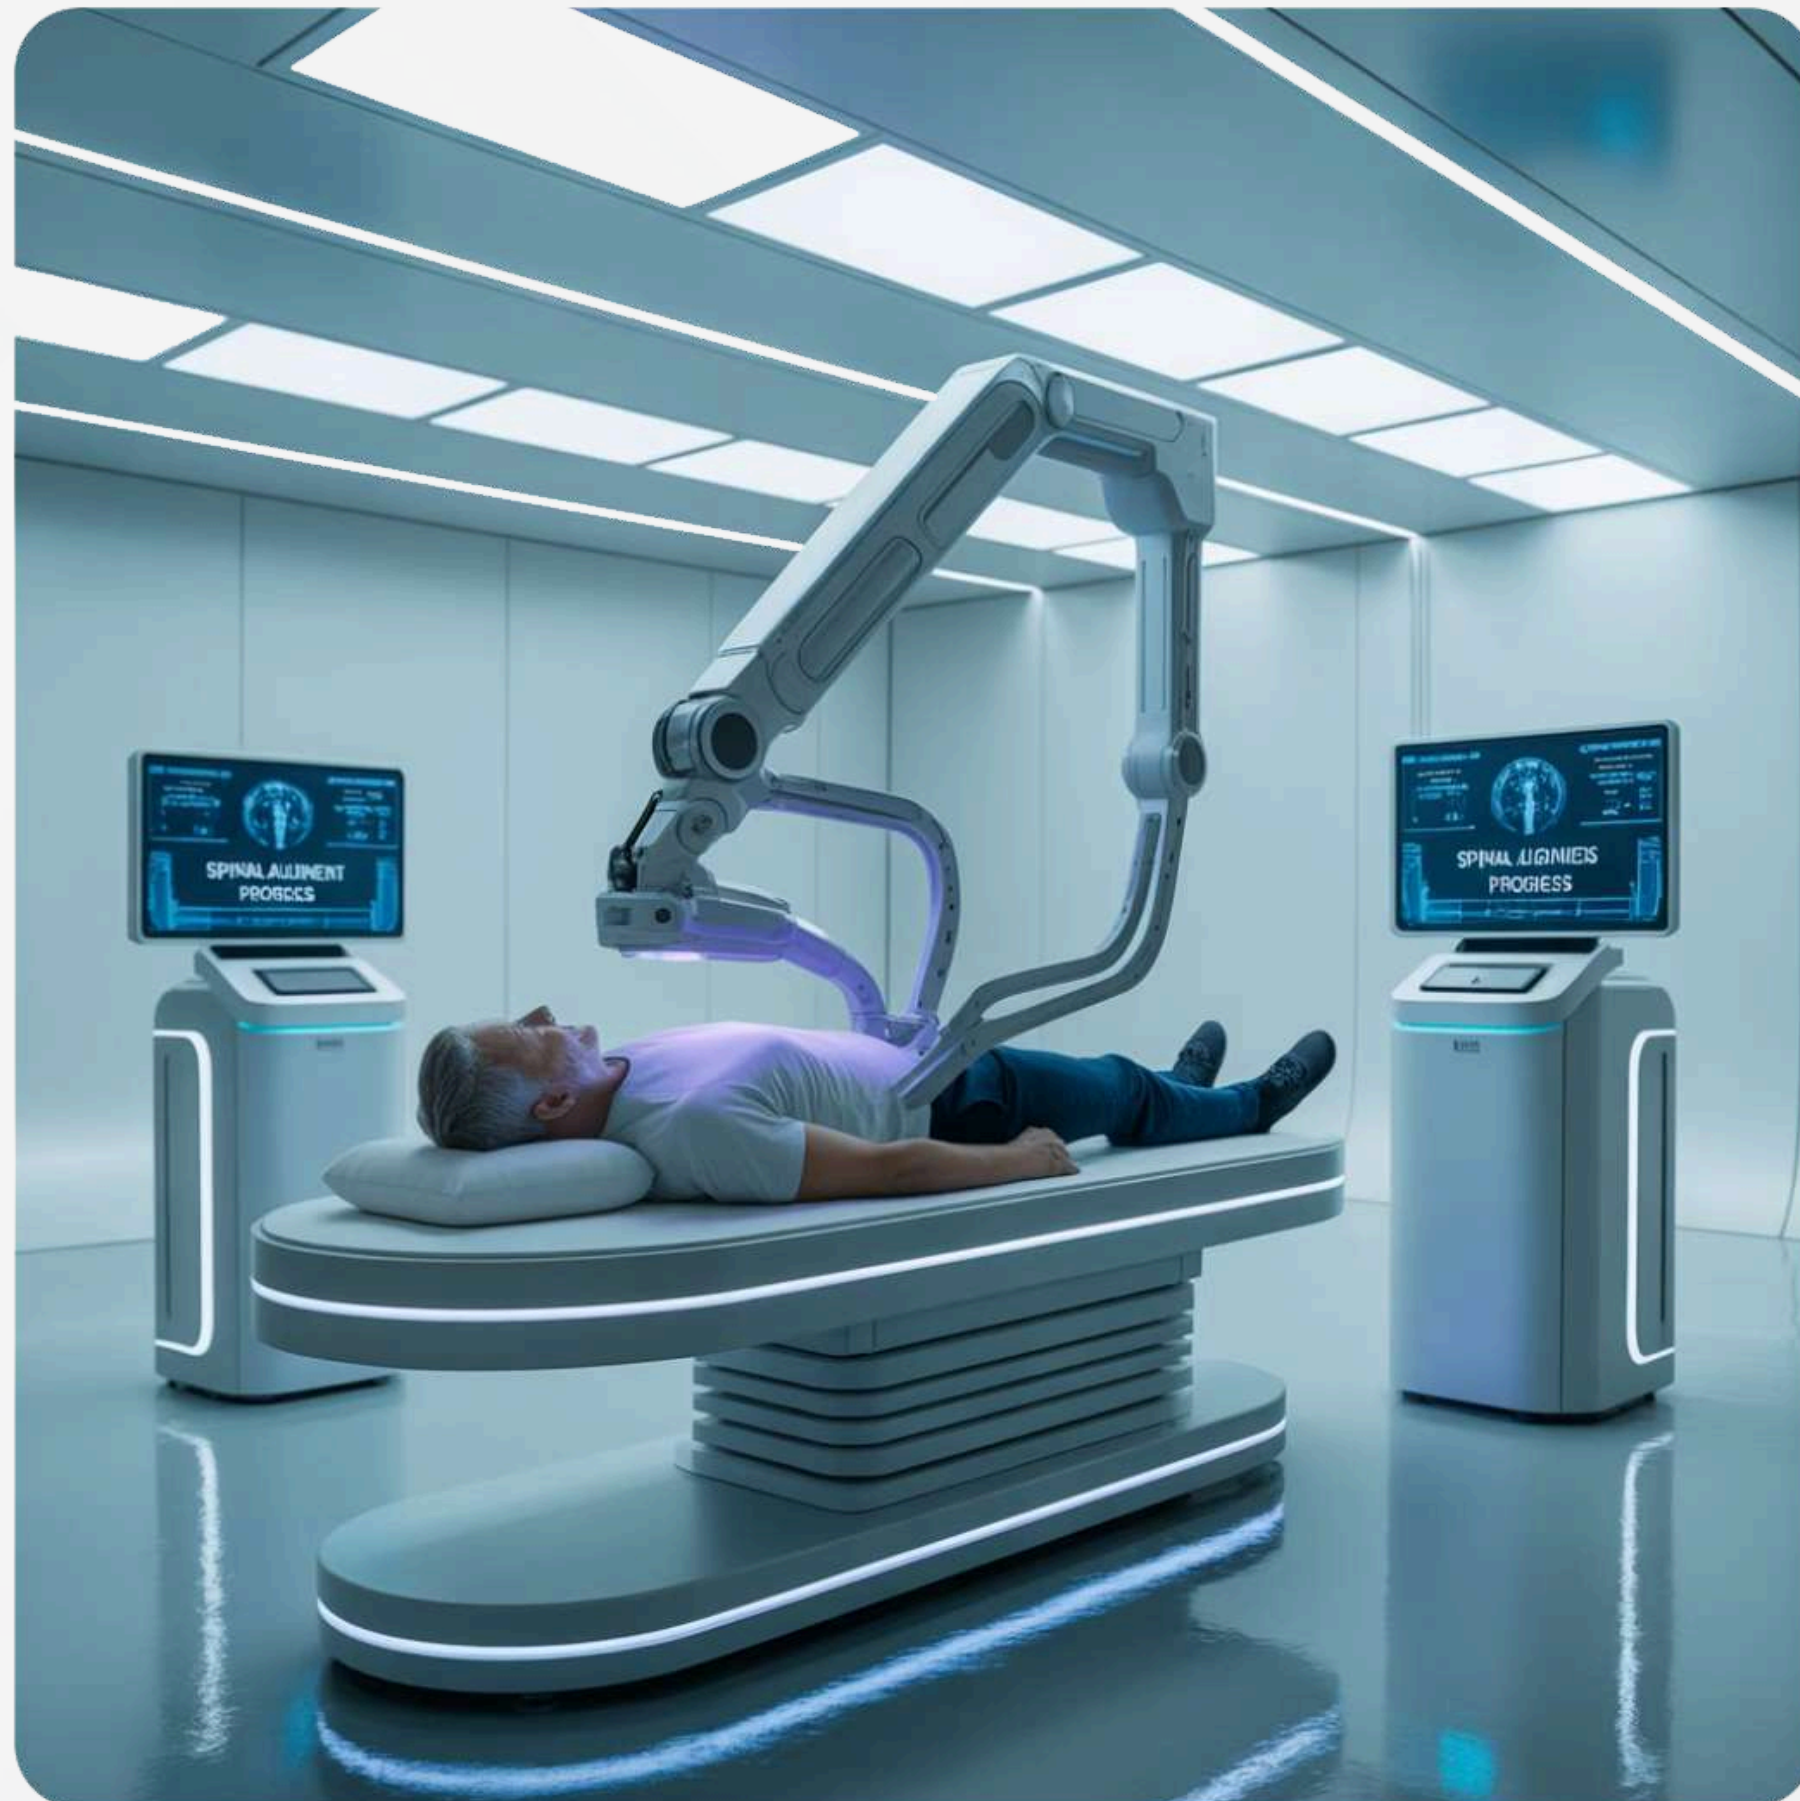

Synergistic Result

Complete & long-lasting relief from pain + spasm

Clinical Indications

💡 Flezonac-TH8 Tablets are recommended for comprehensive management of severe musculoskeletal conditions:

- **Severe low back pain with muscle contractures**
Targeted relief for acute and chronic lower back conditions
- **Cervical & lumbar spondylosis with spasm**
Comprehensive management of degenerative spine conditions
- **Post-traumatic musculoskeletal pain & stiffness**
Accelerated recovery following injury or trauma
- **Osteoarthritis with muscular spasm**
Dual-action therapy for joint and muscle symptoms
- **Sports injuries & post-operative orthopaedic pain**
Enhanced rehabilitation and faster return to activity

Clinical Advantages

★ Key Benefits of Flezonac-TH8

Superior Spasm Relief

Stronger spasm relief versus Thiocolchicoside 4 mg combinations, providing enhanced therapeutic outcomes for severe cases.

Accelerated Recovery

Reduces recovery time in trauma and orthopaedic cases, enabling faster return to normal activities.

Dual-Action Therapy

Comprehensive pain + spasm management in a single formulation, addressing multiple pathways simultaneously.

Convenient Dosing

Twice-daily dosing regimen improves patient compliance and ensures consistent therapeutic levels.

Non-Sedating Profile

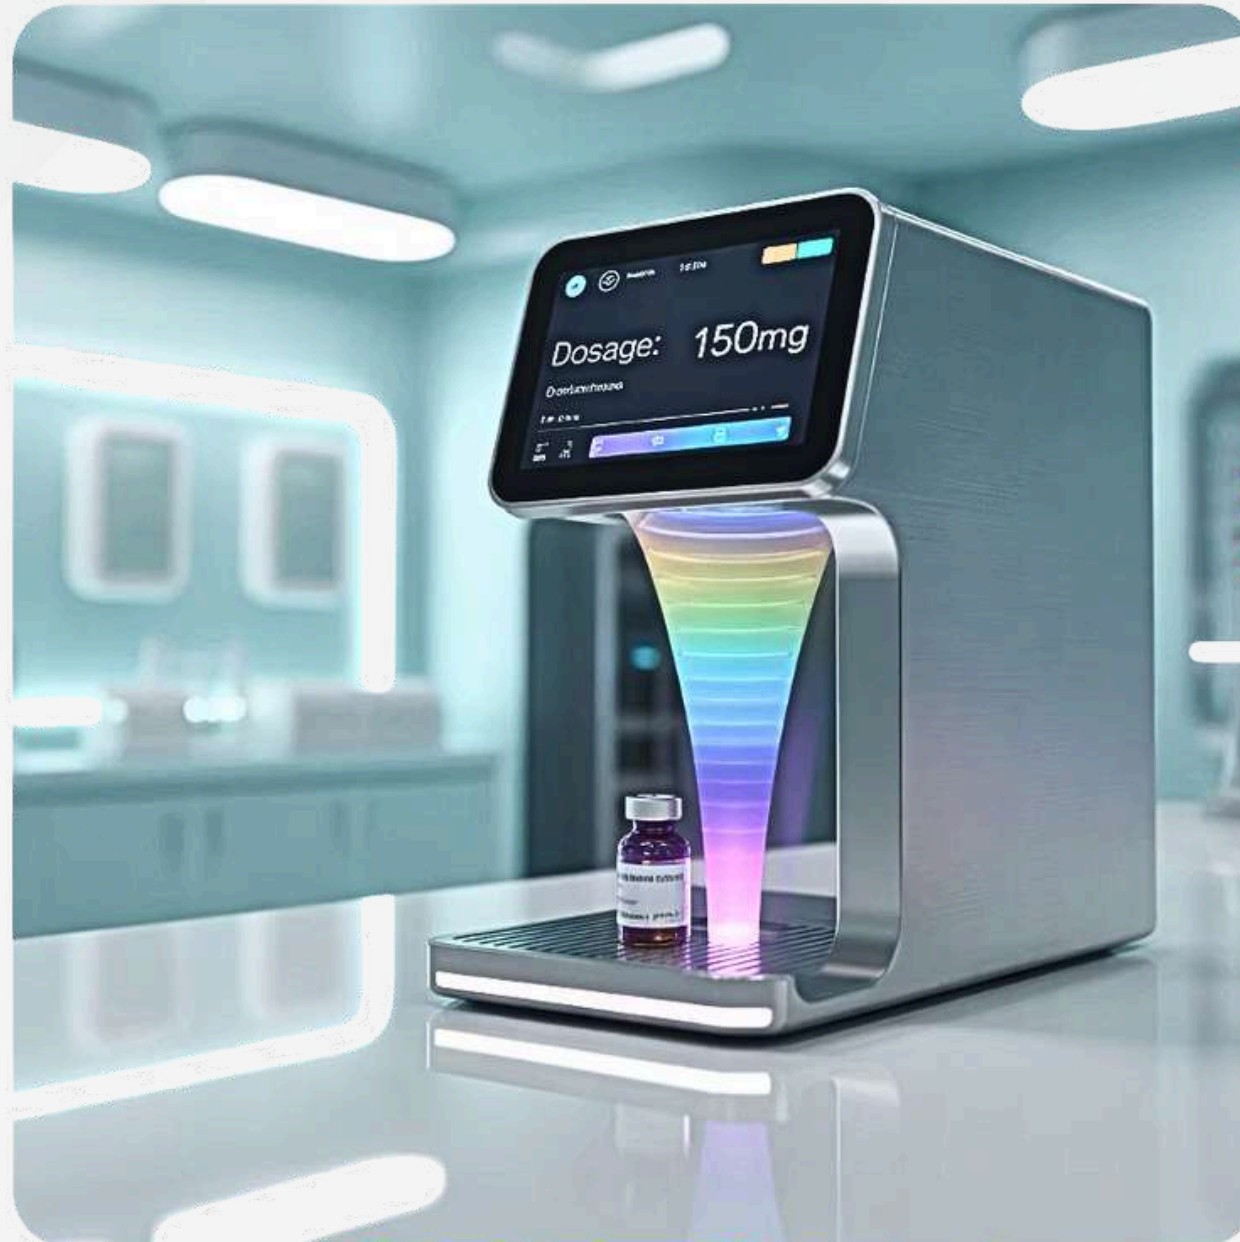

Safe for daytime and workplace use, maintaining patient alertness and productivity during treatment.

Comparative Analysis

Comprehensive comparison demonstrating the superior therapeutic profile of Flezonac-TH8:

Parameter	Flezonac-TH8 (Aceclo + TH 8 mg)	Flezonac-TH4 (TH 4 mg)	NSAIDs Alone
Anti-inflammatory	✓ Strong	✓ Strong	✓ Moderate
Muscle Relaxation	✓ Strong (Severe spasm)	⚠ Mild-Moderate	✗ None
Sedation	✗ Non-sedating	✗ Non-sedating	✗ None
Severity Suitability	✓ Severe	⚠ Mild-Moderate	✗ Limited

Dosage & Administration

1

Standard Dosage

1 Tablet twice daily after meals

Or as advised by physician

2

Duration Guidelines

⚠ Use for shortest duration necessary

Regular monitoring recommended for extended use

3

Important Precautions

⚠ Avoid alcohol & other CNS depressants

Take with food to minimise gastric irritation

⚠ **Clinical Note:** Dosage may be adjusted based on patient response and severity of condition. Always follow prescribing physician's recommendations.

Safety & Tolerability Profile

 **Generally Well-Tolerated**

Possible Side Effects

- Mild gastric upset, nausea
- Rare dizziness or GI discomfort
- Transient headache (uncommon)

Contraindications

Severe hepatic/renal impairment

Requires dose adjustment or alternative therapy

Pregnancy & lactation

Safety not established in these populations

Hypersensitivity

Known allergy to Aceclofenac or Thiocolchicoside

Why Prescribe Flezonac-TH8?

 The Doctor's Choice For Comprehensive Pain Management

High-Strength Spasm Management

Superior efficacy in severe cases requiring intensive muscle relaxation therapy

Dual-Action Formula

Comprehensive inflammation + muscle relaxant therapy in one convenient tablet

Non-Sedating Profile

Safe for active patients, maintaining alertness and daily functionality

Enhanced Recovery

Accelerates healing in orthopaedic and trauma practice, improving patient outcomes
