**Human
Ortho Care**

A SUBSIDIARY OF HUMAN BIOLIFE INDIA PVT. LTD.

Mechanism of Action

Diclofenac Potassium

COX inhibition → ↓ prostaglandins → reduces pain & inflammation

Paracetamol

Central analgesic & antipyretic action

Trypsin-Chymotrypsin

Proteolytic enzyme → breaks down inflammatory mediators → reduces edema, accelerates tissue repair

Result → Triple relief in pain + swelling + stiffness

Indications

💡 Rafdonac®-XL Tablets are recommended for:

1

Acute musculoskeletal pain & trauma

Immediate relief for sudden onset pain and injury

2

Osteoarthritis & rheumatoid arthritis flare-ups

Management of chronic inflammatory joint conditions

3

Post-operative pain & inflammation

Enhanced recovery following surgical procedures

4

Dental pain with swelling

Comprehensive oral pain and inflammation control

5

ENT infections with edema & pain

Treatment of ear, nose, and throat inflammatory conditions

6

Sports injuries & soft tissue inflammation

Rapid recovery for athletic and activity-related injuries

Clinical Advantages

☀ Key Benefits of Rafdonac®-XL:

Enhanced compliance with single-tablet therapy

Simplified dosing regimen improves patient adherence

Triple-action for faster pain & edema control

Comprehensive symptom management with enhanced efficacy

Accelerates post-trauma & post-op recovery

Promotes faster healing and tissue repair processes

Reduces swelling & improves range of motion

Restores functional mobility and flexibility

Effective across ortho, dental, ENT & surgical practice

Versatile application across multiple medical specialties
