Product Overview

Composition (per tablet):

Trypsin (p)

48 mg

Bromelain (BP)

90 mg

Rutoside Trihydrate (BP)

100 mg

Aceclofenac (I.P.)

100 mg

Key Features:

- Combines **NSAID + Enzymes + Flavonoid** for faster recovery
- Controls **pain, swelling, and oedema**
- Promotes **healing & tissue repair**
- Safe, well-tolerated in orthopaedic patients

Mechanism of Action

Understanding how Rutorix-A delivers comprehensive orthopaedic care

Trypsin + Bromelain

Proteolytic Enzymes:

- Break down inflammatory mediators → reduces swelling & oedema
- Enhance fibrinolysis → faster absorption of haematomas
- Promote wound & soft tissue healing

Rutoside

Flavonoid:

- Antioxidant & capillary stabiliser → reduces microvascular damage
- Enhances anti-oedema effect

Aceclofenac

NSAID:

- Inhibits COX enzymes → ↓ prostaglandins → potent anti-inflammatory & analgesic

☀ Outcome → Pain relief + oedema control + faster healing in orthopaedic conditions

**Human
Ortho Care**

A SUBSIDIARY OF HUMAN BIOLIFE INDIA PVT. LTD.

Indications in Orthopaedics

💡 **Rutorix-A is recommended for:**

Acute musculoskeletal pain & trauma

Immediate relief for sudden onset injuries and traumatic conditions

Post-operative pain, swelling & oedema

Comprehensive management following surgical procedures

Fractures, sprains & sports injuries

Accelerated healing for bone and soft tissue injuries

Osteoarthritis & rheumatoid arthritis flare-ups

Effective management of chronic inflammatory conditions

Low back pain, cervical & lumbar spondylosis

Relief from spinal conditions and associated symptoms

Tendinitis, bursitis & periarthrititis

Treatment of inflammatory conditions affecting joints and tendons

Clinical Advantages

Why orthopaedic patients benefit from Rutorix-A's comprehensive approach

★ Why Orthopaedic Patients Benefit:

- Quadruple action**
Pain + Inflammation + Oedema + Healing in one formulation
- Faster recovery**
Accelerated healing in **fractures & post-surgery** cases
- Reduced dependency**
Less reliance on **high-dose NSAIDs alone**
- Improved outcomes**
Enhanced joint mobility & functional recovery
- Better compliance**
Single-tablet therapy improves patient adherence

Comparison with Other Orthopaedic Therapies

Demonstrating Rutorix-A's superior comprehensive approach

Parameter	Rutorix-A (4-in-1)	NSAID Alone	Enzyme Alone	Flavonoid Alone
Pain Relief	✓ Strong	✓ Strong	✗ Minimal	✗ Minimal
Anti-Inflammatory Action	✓ Potent	✓ Moderate	⚠ Limited	✗ Minimal
Oedema Reduction	✓ Yes	✗ No	✓ Yes	✓ Partial
Healing Support	✓ Yes	✗ No	✓ Yes	⚠ Limited
Compliance	✓ High	⚠ Moderate	⚠ Moderate	⚠ Moderate

i Rutorix-A provides comprehensive therapeutic benefits that single-agent therapies cannot match

Dosage & Administration

Dosage in Orthopaedic Patients:

Standard Dosage

1 Tablet twice daily after meals

Duration

Depends on severity:

- 5–14 days for acute
- Longer in chronic cases

Special Notes:

- Administer consistently for optimal results
- Can be combined with antibiotics or other pain relievers post-surgery

Administration Guidelines

Take with food to minimise gastric irritation and ensure optimal absorption of all active components.

Safety & Tolerability

Well-Tolerated Profile:

Enzymes

Mild GI upset (rare occurrence)

Rutoside

Generally safe with excellent tolerability

Aceclofenac

Possible gastric irritation, but safer vs diclofenac

Cautions:

- Avoid in active peptic ulcer, severe hepatic/renal impairment
- Use cautiously in elderly & anticoagulant therapy
- Contraindicated in pregnancy & lactation unless advised

 Always consult healthcare professionals before prescribing to patients with comorbidities

Why Orthopaedic Surgeons & Physicians Prescribe Rutorix-A

The trusted choice for comprehensive orthopaedic care

Doctor's Choice For:

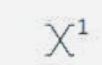

Trauma, fractures & post-surgical inflammation

Comprehensive management from acute injury through recovery

Faster absorption of haematomas & swelling control

Accelerated resolution of post-traumatic complications

Superior to NSAID monotherapy

Enhanced efficacy in reducing pain & oedema compared to single agents

Restores mobility & accelerates rehabilitation

Faster return to functional activities and improved quality of life

Trusted Human Orthocare formulation

Proven multi-action approach backed by clinical experience
