Product Overview

Composition (per tablet):

Trypsin B.P.

48 mg

Bromelain

90 mg

Rutoside Trihydrate B.P.

100 mg

Diclofenac Sodium

50 mg

Key Features:

NSAID + Enzymes + Bioflavonoid Synergy

Unique combination providing comprehensive therapeutic action

Accelerated Recovery

Speeds healing in **ortho trauma, post-op & arthritis**

Triple Action Effects

Strong **anti-inflammatory, analgesic & anti-oedema effects**

Enhanced Outcomes

Improves mobility, comfort & healing

Mechanism of Action

Diclofenac

Inhibits COX → reduces prostaglandins → ↓ pain & inflammation

Trypsin + Bromelain

Proteolytic enzymes → break down inflammatory mediators & fibrin → reduce oedema & swelling

Rutoside

Bioflavonoid → antioxidant, stabilises capillaries → reduces microvascular leakage

Result

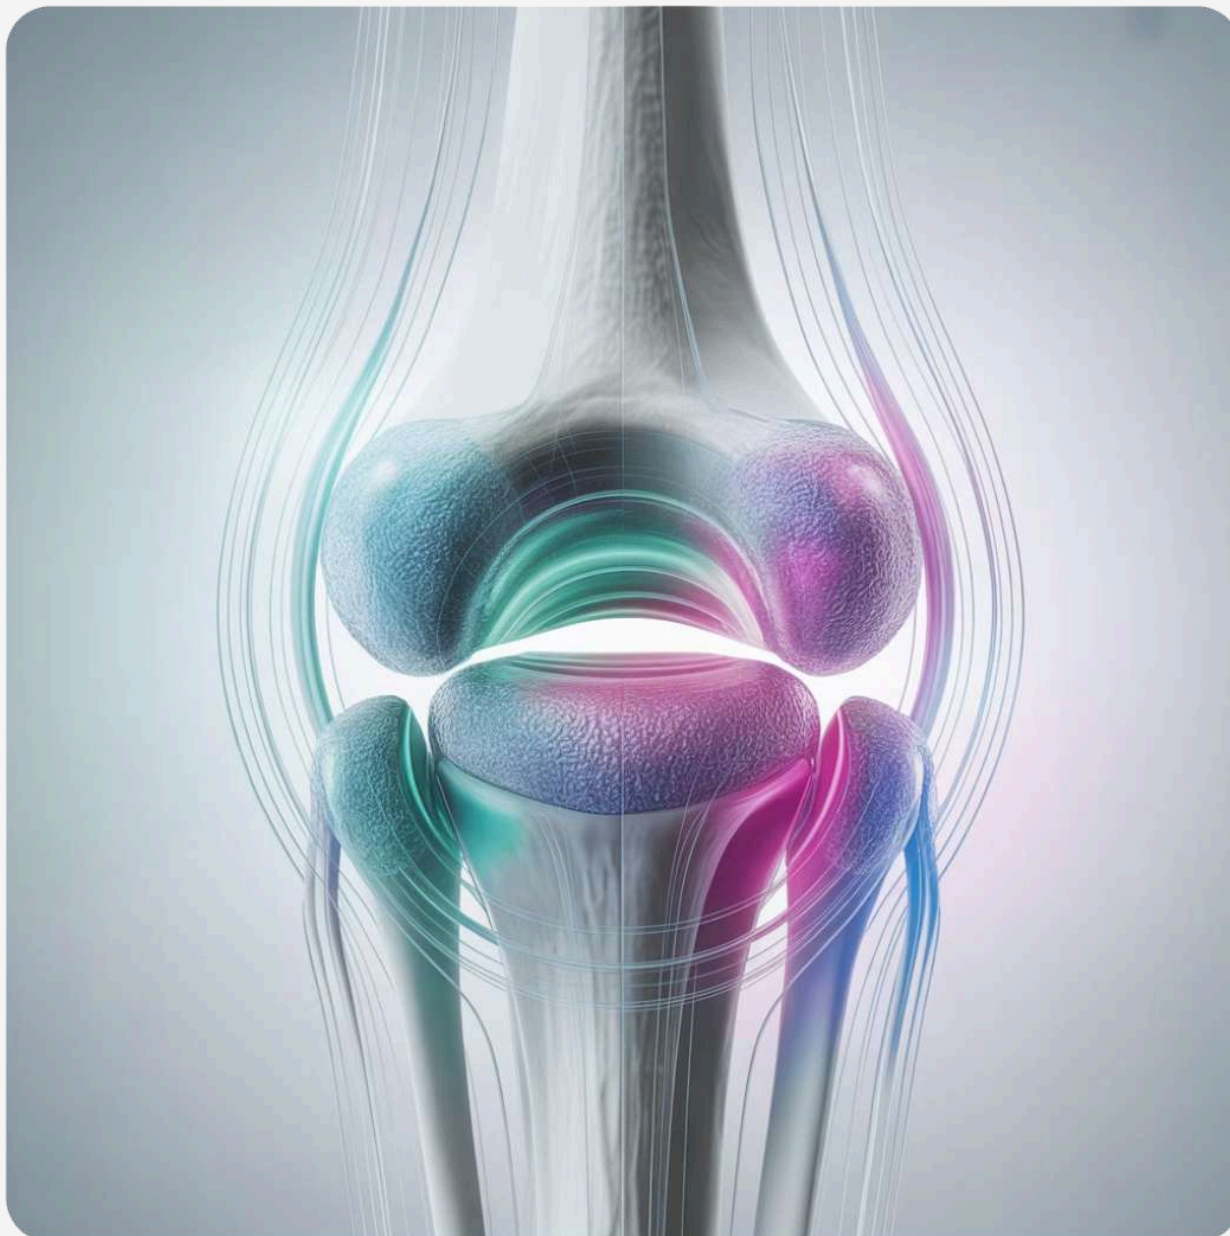

Comprehensive control of pain, inflammation, swelling & tissue recovery

Indications (Ortho Focused)

💡 **Rutorix-D Tablets are recommended for:**

- **Post-traumatic swelling & pain**
Fractures, sprains, soft tissue injury
- **Post-orthopaedic surgical inflammation**
Reduces oedema and accelerates healing
- **Osteoarthritis & rheumatoid arthritis**
Particularly effective with swelling
- **Cervical & lumbar spondylosis**
Reduces stiffness and improves mobility
- **Sports injuries**
Musculoskeletal inflammation management

The Novarx logo is displayed in a white, cursive script font, centered within a large, translucent green sphere. The sphere has a subtle grid pattern and a glowing effect at its base. The background of the top banner features a futuristic medical setting with multiple digital screens showing anatomical diagrams and data charts, and a medical stand with a device.

Clinical Advantages

★ Key Benefits of Rutorix-D:

Quadruple-action formula

Targets pain + swelling + stiffness + healing simultaneously

Faster resolution

Rapid reduction of **oedema & haematoma** post-trauma/surgery

Reduced dependency

Decreases need for high-dose NSAIDs

Safety Profile

Safe & effective in both acute & chronic ortho conditions

Recovery Enhancement

Improves rehabilitation & recovery time significantly

Comparison with Standard NSAID + Enzyme Therapy

Parameter	Rutorix-D (Diclo + Enzymes + Rutoside)	Diclo + PCM	Diclo + Enzymes
